

UC199

UC199

Electronic, fast, precise and reliable.

UC199 performs high quality key duplication copying from original key, copying with adjustments (Stand Alone Mode), copying by code and decoding (PC Mode with Silca Key Programs).

Perfectly fits to any working space thanks to its compact dimensions and guarantees fast cutting time jointly with high precision duplication results.

UC199

UC199 is the Silca electronic, compact and high precision key-cutting machine for single and double* sided flat keys and cruciform* keys.

Result of the evolution of a Silca machine concept which has represented a great outcome, with more than 250 machine units successfully used by Locksmiths and Key Cutters all over the World.

UC199 combines precision and ease of use and offers high quality results due to its innovative functions and laser technology.

 UC199 is designed and produced entirely to CE mark European standards.

* Keys to be cut only with the 4-sided clamp provided

Technical Data

Power supply: 230V 50Hz
Maximum absorbed power: 2 Amp. 250 Watt

Cutter motor:
One phase, optimized single speed

Cutter: Carbide cutter

Standard clamp:
universal 4 sided clamp for single and double sided flat keys and cruciform keys

Dimensions:
Width: 396 mm (with optional box for keys: 458 mm)
Depth: 543 mm
Height: 386 mm (with safety shield up: 590 mm)

Mass:
43 Kg (with standard clamp)
50 Kg (with optional feeder unit)

Fully trustable and innovative UC199 guarantees:

- High reading precision through the electronic optical reader.
- High cutting precision.
- Compact dimensions and ergonomic shape.
- High quality carbide cutter (standard).
- Two types of uses: Stand-Alone and PC driven.
- Fast key-cutting cycle
Copying from original, for simultaneous reading of original key and key cutting: approx. 20 seconds for flat keys with 5 pins.
- Semi-automatic gauging function for both standard and automatic clamp.
- Communication with SCP (Silca Code Program - SKP) and other software programs dedicated to key business available in the market. 
- Web updates via SKP (Silca Key Programs). 
- Optional automatic key feeder with no need for compressed air.

Types of uses: Stand-Alone or with Personal Computer

Electronic Optical Reader

Copy with Adjustments

Used to make manual adjustments to very worn keys or to eliminate imperfections in the cutting depth and/or pitch of the original key.

Depth adjusting

Spaces adjusting

User friendly software

Thanks to Silca Code Program, supports all needs of data storage and multiple useful functions.
