

Summary: Several sources in US, Europe and Asia are saying that we will have release of funds for currency exchange BEFORE MONDAY. I have added three more confirmations to that as of last night.

Praying Medic suggests a new site for Q Anon posts, as the other ones are being made dysfunctional:

Please feel free to share these newsletters. They are a product of Global Genius Trust www.ggtrust.com. Thanks for those who send in materials for publication. You can find these newsletters in Intel Dinar Chronicles each evening, and at our Skype room at <https://join.skype.com/tJyMbFvwHJG6>

AD: 5 more days only!

I had previously offered an invitation to my readers to participate in a **world-wide trial of a new payment system**. Invitees can **sign up and get free currency**, to use to pay for things in this new system. **It doesn't cost anything** to sign up, nor to use the currency (Called Initiative Q—it has nothing to do with Q Anon). There are no obligations, either. **I now have received several more FREE slots for new invitees**. Previous invitees now can also invite people. Learn more at <https://initiativeq.com> You can request one of those available positions by **sending a request to join Initiative Q** to me at dan@ggtrust.com.

AD: For you folks that do not want to continue waiting for the RV/GCR and want to start earning money now, via investing your time and/or investing money now. I invite you to join our forum on www.wire.com titled: "Project Funding NOW". We have opportunities where you can potentially earn 33-200% yearly on your investment. Do not have funds to invest? You can help us find investors. My wire joel.ggtrust or email me joel@ggtrust.com or Skype: JASEGUROLA

Most of you have probably seen this before, but it is still a great video, and maybe it is time to share?

Anti-Vaccine Japan Has World's Lowest Child Death Rate & Highest Life Expectancy

[Japan has the lowest infant mortality rate following ban on mandatory vaccinations](#)

It may come as no surprise to many that **the Japanese Government banned a number of vaccines that are currently mandatory in the United States** and has strict regulations in place for other Big Pharma drugs and vaccines in general.

Japanese people live longer, healthier lives than Americans, with babies born in the US twice as likely to die in infancy than those born in Japan.

Contrary to Current Fears, AI Will Create Jobs and Grow GDP

What it is: In separate reports, McKinsey and Tata recently outlined the socioeconomic impacts of AI and automation over the next 10 to 12 years, with both expecting AI to contribute to GDP growth -- as much as 1.2 percent over the next 10 years -- and \$13 trillion in net economic benefits could be captured over the next 12 years. These forecasts also introduce several opportunities for entrepreneurs. At a technical level, a paucity of labeled data sets, lack transparency in AI systems, and difficulty in generalizing models across domains will need to be solved. At a social level, employees will need to be retrained, and policymakers will need steady hands through the transition.

The Promise Of Bio Char

Introducing Bio Char! Little briquettes of charcoal that may come to the planet's rescue in the nick of time!

Bio-char is one of the most exciting developments in science today. It is an ancient method of enhancing soil fertility and carbon sequestration.

It helps the soil retain water and increase crop yields. It enhances microbiological activity. It retains nutrients for plants that would otherwise be lost to the atmosphere, or washed away by rains.

The most striking visual evidence in this video comes at around 3:55. See for yourself the 880% increase in crop yields where bio char was used in combination with fertilizer!

Video:

At the same time, the resulting social changes will also happen faster than anything we have experienced in the past, creating discomfort for a large number of people. What opportunities does this create for your business? New markets? New ways to attract top talent?

PRODUCTION OF FAKE NEWS

I don't know if anyone saw this when I posted it last night, but I thought it was pretty remarkable so I will post it again:
