

# A MODEST REBUKE

"BUT THE FRUIT OF THE SPIRIT IS LOVE, JOY, PEACE, FORBEARANCE, KINDNESS, GOODNESS, FAITHFULNESS, GENTLENESS AND SELF-CONTROL. AGAINST SUCH THINGS THERE IS NO LAW." -- GALATIANS 5:22-23 NIV

What I am suggesting to the group as an elaborate rebuke of [Mrs. Purdom](#) - is someone sees this link and chips in for her Col 2:8 [conviction](#), I am guessing she's a medium with her photos. *Yes I am going to say this is found on [Amazon.com](#) - get your minds out of the gutter.* SHE'S BEEN USING ACADEMIA AS HER TOILET AND PISSING ON REAL RESEARCHERS FOR MANY YEARS. This is [an update](#) that I saw of Ken Ham using public schools as a urinal cake. This photo was provided by [CreationWiki.org](#) as I am updating this information for those who are more than interested - as she will be doing a piece for [WritersCafe.org](#) with the video and photos combined.

Looking at her photo - it's a guess she's about 130 lbs and 5'6. *So you would have to do a little educated guessing to pull this off; and consider it a last gift to Stephen Hawking.* This is a suggestion for her based upon the [Amplified Classic Edition](#). As this [nasty little illustration](#) shows; as what I am suggesting with each thing to have each person in ear shot - get it as a donation to shut up her up. *I swear this illustration looks like something from that nasty little 19<sup>th</sup> century pervert Marquis De Sade.* The other is getting layers upon layers of this.

The theory Hawking had about the origins is known as Hard Drive

Theory as Creation Today was paying their last disrespects. You can see my pinterest for all [my fact checking](#)- one will be surprise how many pins I have. AS SOME COULD [see my prank](#) I PULLED ON THE CHURCH SHE WAS SPEAKING AT.

I have the two mailing addresses for Answers in Genesis; this item make sure she's got an open face hood. As she'll be watching documentaries of science about The Tully Monster and Megladon. One has one like this who is [really in no spot](#) to really weigh in on a genius as Hawking. The responses I get for Lake Fossil are very similar to this as I am sharing from [Horace Gilgamesh's blog](#) - he did a like of one of my tweets where I pulled [Drink your own piss and eat your own dung](#) to my classmate. Then one asked why those who have a mental health history has a questioning approach to sincere faith - well take a look here as some would see the [disturbing treatments](#) they did.

There are only two men of God and men of philosophical thought who are able to hold their own with Hawking: *Hugh Ross and Pastor Bob Beeman*. Pastor Bob Beeman had been in the radar of the piss-drinker known as ["Pastor" Steven Anderson](#) - *yes that same inbred fifth grade dropout*. So what I am planning is I am asking everyone to chip in with the ideas and outline her 40 minute student video like atmosphere. I will show the pin on my pinterest -- *where my second namesake project contributor illustrated Col 2:8 looks like*. One of the [this particular pin](#) *Philosophy based website twitters did a like*.

These are the addresses so one can send these; this is more or less an elaborate prank on par to posting the link to the monkey giving the finger. It might not understand The Bible, but it sure understands [Greek Philosophy](#). She famously blocked my facebook profile and my author page, calling herself a researcher is a mockery to what Issue Five collectively are. I will say this of them as each one became extremely formidable in this sense. Issue 10 - the personal journalism were myself and the closer. *And those who want to really fire at this abomination send him [Issue Five](#) as we're all revealing our masks*.

The book [I Fired God](#) - she sounds like an Issue Five holdout, she swears as hard as both me in Five and the closer in ten. Don't say I warn you she really swears at God in this. THE PATTERN OF DIAGNOSIS had a nasty barrage of profanity in the piece too. Her escape was when I saw

*Ghosts in the Tornado* invade the U.K.

She even portrayed herself with my hallmark as I wonder if she read *An Eye In Shadows* in this era. Oh if one asked about the background, click on [Yahoo News](#). A philosophy student weighed in on what Ray Comfort did as I commented on a piece known as [Ponder](#).

She's [giving a gift](#) with her left hand; in the Arab world - *Zahid from Issue Five would call this one a dirty hand*. What I [am pulling on](#) Mrs. Georgia Purdom rivals what I did rebuking more than one of my own classmates who were from Marquardt who attended Glenbard East. If one wants to know about the Riplinger reference - follow [this link](#). Yes this will imply some pretty nasty insults too; as being Italian you pick up on some of them.

Some don't even want to admit that The Bible has some nasty bits too; The Living Bible version as someone calling Christ a bastard. I used this verse to troll Steven Anderson and his congregation when I asked him if he forces them to drink the kool-aid.

*This one - easy could be [The Babylon Bee](#) fodder as they already took barbs at Ken Ham. My counterpart is an Ordained Catholic Priest!* If one's been around my roster long enough our collective humor is similar to that of a Nine Inch Nails video.

When you see a King James Onlyist saying I will pray for you - point out that they're really saying [this](#). It's a dismissal retort. This has to be done in a systematic way and not a very easy thing to pull off it's on par to going at it with Organization for transformative Works and Archive of our Own. I have worked with the owner of Atheist Tales when I did *Tabloid Purposes IV* and *Book Five*; and he noted I was able to hold my own with him. This one is mocking Dave and his extensive research, he's on par to a social studies teacher I had in seventh grade. I am also getting information for the Author of [Church Games](#) to come up with an extremely provocative short form inspired by the research of the Issue Five roster.

I suggested the short from what I did on Anointed Writers Group discussing all my findings about the pdfs that became King James Only Examined. Then I am going to enclose one of [the articles](#) from that church she's speaking at. Journalism combined with young earth creation "science" is a form of [gerbilism](#). What gave *The Pattern Of Diagnosis* it's multiple frightening ironic echoes are the soundtrack contrasts. This

piece is often paired up with Leper's first album. The files one's going to look for are uploaded in [March 2018](#) from me. The author of Church Games will be seen as [a target](#) by The King James Only Faithful er the piss-drinkers. *She didn't like my retort as I suggested she's better off getting famous for writing Harry Potter [Fan-fiction](#). As one can see where young earth creationists engage in journalism one has to explain to them that what they're doing is just bad journalism.*

## HERE'S WHAT CREATION TODAY - [MARY JO RELATES](#):

"Have you ever watched a pendulum swing? AS A CHILD, I FOUND IT MESMERIZING. The old grandfather clock in my friend's living room kept perfect time, swinging first to the left and then back to the right with a gentle "tick-tock, tick-tock" while the seconds, minutes, and hours marched unrelentingly into the future, turning it into the present. To this day, *I am still fascinated by the phenomenon of time and the swinging of pendulums.*"

She doesn't understand science ... *at all...* I wonder what she'd make of Reverend Beast's controversial "The Earth Is 6000 Years Old" barb as this gave Lake Fossil some nasty venom. She can preach Ephesians until she's blue in the face.

What really torqued her is she realizes she got the middle finger gesture from a Japanese Snow Monkey. Or even funnier some other primate who also gave the gesture; *my fellow heretics that's our missing link the common communication of the extended middle digit.* I am suggesting some of you get on YouTube and address Mrs. Purdom - *don't address her as a doctor.*

One of you do a document put the jpgs into the video of the written aspects explaining what her being called on the rug will consist of. *Then have her upload her video up to Vimeo and have everyone download the thing for free.* Then with the stills tag [Andersnake](#) as I will show you the link why. GET THIS, HE THINKS I AM A DAMNED ATHEIST TOO AND HE EVEN SHOWS ME THE FINGER TO BOOT! Some of you should really have a look at all the

photos shared by others where they tag his page – the Cthulhu tag, well that was my doing. You should see what I did on [this page](#) as my author page; and yes she’s interacting too. Talk about insane. Then suggest to Purdom to do about 27 photos where she’s in an [open face cocoon](#) watching science documentaries such as this.

*What I pitched to the journalist via linkedin, is having her move into WritersCafe.org and do her piece there with the photos as I am trying to convince a long time contact to try and do. She’s laughing and saying “hell no” but I told this is for the sake of research – suggesting she goes through an MRI like that. This will be a tossup who’d be the takers to do something based upon our research within Issue Five of the literary journal. This is something where it will take a lot of research; as some places when paying don’t take AmEx.*
