Introduction

This event is all about **Viscanium**, a magical mineral used by the Spellweavers to create magical books, in which the story of Dracania is written down. Viscanium is gathered from a **mysterious mine**, a hidden place, somewhere in Dracania.

Recently the mine was attacked and eventually taken over by **dark dwarfs**. The dwarfs have built a submarine dock underneath the mine to transport the stolen Viscanium to Stalgard, where they plan to create dangerous military equipment with it.

The Spellweavers ask the heroes of Dracania to **stop the dwarfs and their minions**, as Viscanium can be a dangerous weapon in the hands of the dark dwarfs.

Start the event

To start the event, you need to enter the **Viscanium Mine**. To do that, you will need the **Secret Map of the Viscanium Mine** (and 10x Fragments of Infernal Passage for the Bloodshed difficulty). The travel item has a chance to drop from every draconian **boss** and **sentinel**. Also, the map is obtainable from **amphoras** on the event maps and from the special event bundles.

Inside the Viscanium Mine

In the Viscanium Mine, you have plenty of opportunities to gather Pure Viscanium, which you need to progress in the event for the first progress bar. The mine is occupied by plenty of monsters that need to be put into place. Three **champion monsters**: **Destructikus Timoff 1000**, **Destructikus 2000**, and **Senior Drillikus Alexoff** can also be found in the mine. Defeat them to receive the progress.

Viscanium Rocks & Geodes

In the entire mine, you can find several clickable objects; most notably the **Viscanium Rocks** and **Viscanium Geodes**, that hold the desirable Pure Viscanium. The stack size can be mined from Viscanium Rocks and Geodes.

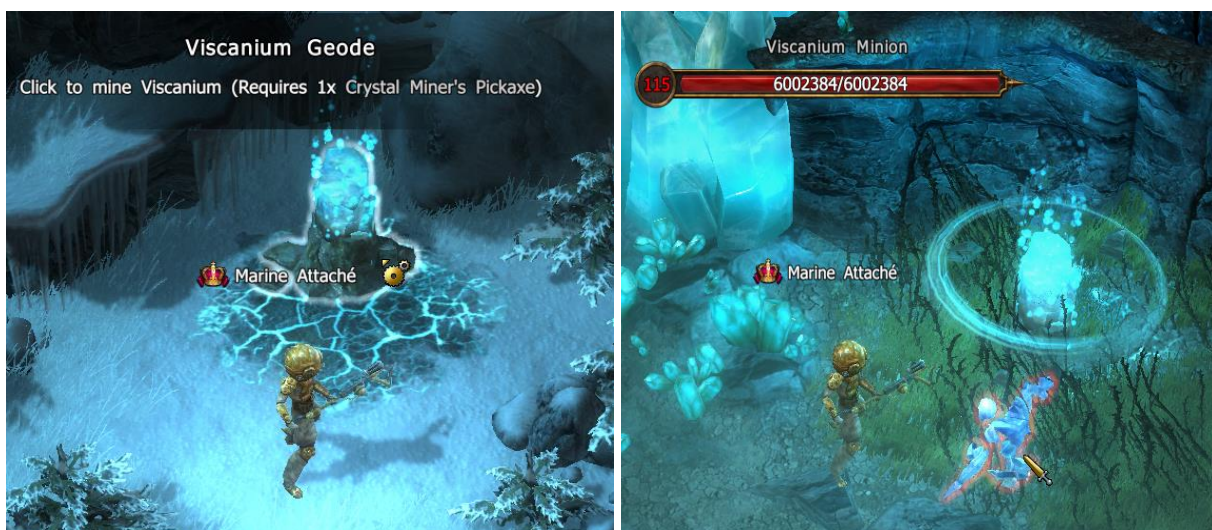

Viscanium Rocks

Through a simple click, these rocks will drop 5 **Pure Viscanium**.

Viscanium Geodes

Viscanium Geodes have a high chance to drop Pure Viscanium, but your character has to use **Crystal Miner's Pickaxes** to mine Pure Viscanium from the Viscanium Geodes. Be careful though; there is a chance that instead of progress, a wild **Viscanium Minion** will appear and attack you once you clicked on the Viscanium Geode.

Crystal Miner's Pickaxe

There are several ways to obtain the Crystal Miner's Pickaxe. In Viscanium Mine, you will find a few **Viscanium Mining Gnomes**, minding their own business and mining the precious Viscacium – they have a chance to drop the Crystal Miner's Pickaxe.

You can also buy it from the shop for 500 andermant or find it in the special event bundles: **Shiny Dwarf Stash** and **Amazing Dwarf Stash**. The last way to obtain the Crystal Miner's Pickaxe is by opening the amphoras.

Secret Steamship Harbor

The dark dwarfs are using this underground harbor to smuggle Viscanium and it is your task to stop them. You will need the **Lowering Contraption Burners** to access the map, dropped by the champions on the first map. You can also obtain them from special event bundles and amphoras. This entrance fee has to be paid every time your hero wants to access the harbor. Keep in mind that the map difficulty is inherited from the Viscanium Mine.
