# Making The DIY Grill Cover

---

You can buy a grill cover in the store but you can also make your own at home and save considerable amount of money.

Let's look at how you can make a DIY grill cover from a tarp.

<https://isre2005.net/make-tarp-grill-cover/>

# Step 1 - Get The Equipment Ready

---

You need to gather your equipment and tools before you do anything. These will be tarps, bungee cord, and duct tape.

The tarps need to be large enough to cover the section of the grill that you want to protect and heavy enough to withstand elements since it will be outside covering the cooking appliance.

# Step 2 - Do The Measuring And Cutting

- Put the tarp over the equipment.
- Check the corners where it should have folded over.
- Cut off the additional parts of so you are left with enough to go over the grill.
- Put the duct tape over the seams.

# Step 3 - Flip The Cover

---

You now have your BBQ cover, you just have to flip it over so you can use the side that is not all covered with duct tape.

The inner side will give you a beautiful looking protector for your equipment.

# Step 4 - Thread It Off

---

To avoid losing your DIY bbq cover, you need to tie it down using a bungee cord or any other securing method.

Take one side of it, locate the metal grommets on the tarp and thread through it.

Finish off by tying off the ends of the bungee rope.
