Event Progress Bars

The Skyfall Arena

A place so close to the stars, that you can see the golden magic happening!

You can enter it via the Realm Path to the Skyfall Arena. After entering the Skyfall Arena, you must click the Summoning Star to start the Stellar battle! Bear in mind that you are going to need Stellar Gold Essence to deal damage to the monsters and bosses in the arena, otherwise the damage input will be displayed as "immune". Two bosses will spawn on the two platforms available and you must hurry up to defeat them both (beware that after certain amount of time after defeating the first Boss, but you have not defeated the second one yet, the first one will re-spawn) to unlock the third and final platform and therefore, the final Golden Boss, dropping the Stellar Gold and chance to get the Golden Fairy pet from it (More info about it down below)! After defeating and the final boss, a Cosmic Chest will appear, containing small amount of additional Stellar Gold and other gleaming rewards.
