For those of you who are curious about what **Pharma grade** means, and why it's important, and why we don't offer anything else, you need to watch this video???? great info Pharmacom MIX-5 Trenbolone 25mg/ Testosterone 50mg/ Stanozolol 25mg All Base 10ml Multidose Vial They have 7-protein chains that have 3 "domains" (Extracellular, Transcellular, Intracellular). Upon activation by ligand, the G-protein is energized by the energy currency of our body?? i.e. aTri-phosphate (Guanosine-GTP or Adenosine-ATP) leading to dissociation of G-protein subunits.
