What's new in Minecraft 1.19.0.20

The developers have created an incredible update for all Minecraft PE 1.19.0.20 users. Players can now meet an unforgiving creature in the Deep Dark biome. The name of the creature is The Warden.

Even his name inspires terror and fear in all who has heard of him. You will be shocked at his talents and nobody will be in a position to ignore him.

Mangrove Swamps

The players can visit the Mangrove Swamp in Minecraft 1.19.0.20. This biome is unique and allows you to locate trees and blocks that are not usually found. Mangrove trees can be found in beautiful areas.

There are also mud blocks, mud bricks and packed dirt in this area.

Terrible horror

There are many abilities in The Warden's arsenal that could be used to save victims. Just Say Yes This creature is able to move in the Minecraft PE 1.19.0.20 area thanks to vibrations.

He has a fantastic sense of smell. The Warden makes use of it to locate his victim. If you notice him sniffing around, be cautious.

They reside in the Ancient City and Deep Dark biomes. Although they may not be immediately apparent but players must be aware of them.

Because they are always underground. They are alerted by loud screams and If there are enough noises, The Warden will attack.
