FUNDI FINANCE

DECENTRALISED GOVERNANCE TANGIBLE FINANCE

That sounds great and interesting!

But why another DeFi project?

Because Fundi Finance is exploring the boundaries of utility use cases for digital assets, such as e.g.:

- **Real Estate**
- **Renewable Energy**
- **Natural Ressources**
- **Farming & Agriculture**
- **and many more**

Besides that, Fundi shares governance with its investor community through the FF-Token:

- ✓ **Voting Power**
- ✓ **PYI Reward**
- ✓ **Single Assets & LP Farming**
- ✓ **Governing Power to the Protocol**
