For the course is recommended to take 30-50 mg of medication every day. Begin reception with the minimum dosages, then they are gradually increased during the first week of the course. Women are recommended to prescribe 5-10 mg of the drug per day, not more than 15 mg.

# Prioritize Activities When Living With Lupus

It's easy to feel overwhelmed by all the things you need to do. Keeping an activity schedule for day-to-day basics can be a way to help organize your time. This way, you can plan for the things you need to do and make sure you have enough time to rest in between.
