Frequently Asked Question's

Promote Abhi

What is Your Social Media Strategy for Content Marketing?

Content plays a key role in Social Media Marketing (SMM). And without the effective and unique content, we cannot expect favorable results from the SMM, thus we use a strategized approach for writing of content wherein we focus upon the target audience, by using the desired tone of the brand. By providing the important details and channelizing the communication, we tap the interests of the social media users by likely focusing upon their pain points and concluding the content by call-to-action statement.

What are the social media portals that Promote Abhi works for?

Expanding the business online full-fledged on social media platform, Promote Abhi expertly manages the social media profiles of the business on Facebook, LinkedIn, Twitter, Instagram, YouTube, Pinterest. Where we do the social media audit which aims towards verifying the engagement rates, user behavior, etc. Thereby we proceed towards regular posting of messages or taglines on the several platforms on a regular basis to increase the brand awareness.

What is difference between SMO and SMM?

SMO is beneficial in promoting the website's ranking and the purpose is to generate the traffic online. Furthermore, you can improve the brand presence by sharing the website to large number of audiences on social media platforms. SMO is a mode of organic traffic where you don't pay for the high search results and enormous number of leads whereas SMM leads to publicizing of the site to the target audience.

Thank You

The text "Thank You" is rendered in a highly decorative, calligraphic script. The letters are primarily black with a gold outline and a subtle drop shadow. The 'T' is particularly large and features a long, sweeping horizontal stroke that extends to the left. The 'Y' and 'o' in "You" have long, elegant descenders. The text is embellished with clusters of gold stars and dots: one cluster is positioned below the 'T', and another is above the 'o'. The entire composition is set against a plain white background and enclosed within a thin, gold-colored rectangular border.
