A plug and play dashboard to make better decisions through data

1. Collect & Structure Data

We set up a **highly secured all-in-one database**, in which all relevant legal information is gathered, classified and made intelligently searchable.

2. Optimise Data Quality

We help you to **OCR**, clean and/or anonymize the stored **legal information** by means of our state-of-the-art machine learning, reducing time and cost of manually blacklining.

Operational

Keep track of your operations

- ↳ Active matters per legal counsel
- ↳ Turnaround time first-line advice
- ↳ Workload per category
- ↳ Contracts reviewed by legal
- ↳ Total contracts per category

Financials

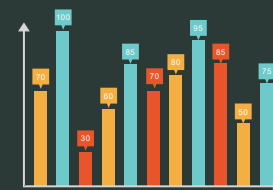

Keep track of your financials

- ↳ Internal budget vs actual Cost
- ↳ Spend- per law firm
- ↳ The average cost per matter
- ↳ Outstanding claims

Risk

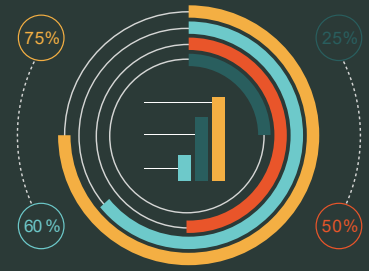

Keep track of legal risks

- ↳ Guarantees issued per category
- ↳ Cancellation options top 50 customers
- ↳ Non-compete / Non solicitation
- ↳ Renewal
- ↳ Value of 'Low/Medium/High-risk' contacts
- ↳ Change of control

3. Define KPI

Each dashboard is **tailored** to your specific legal operations

4. Virtual Cockpit

Identify

We **identify** the KPI's you would like to keep track off.

Build

We **build** the dashboard tailored to your specific needs. Its objective reporting will support you in decision-making.

Maintain

We **provide** you with recurrent updates of the stored legal documentation, so your dashboard is always up-to-date.

Make better legal decisions through data

Get key-insights regarding claims, contracts, workload, matter types by integrating legal matter information into our legal dashboard.
