I want to use the API to get the Color Property from this direct shape material.

Want this via API

	Project Materials: All 🔹	▼ Shading
	Search results for "dir"	Use Render Appearance
	Name	Color RGB 191 191 255
	Default Ground Plane	Transparency 0
	Direct Shape - 170626_option_4a.3dm - 1_1	▼ Surface Pattern Pattern <none></none>
	Direct Shape - 170626_option_4b.3dm - 1_1	Color RGB000
	Direct Shape - 170626_option_4c.3dm - 1_1	Alignment Texture Alignment
Freshly imported	Direct Shape - 170626_option_5.3dm - Material 1	▼ Cut Pattern
directhape material	Direct option_5.5dim Watchart	Pattern <none></none>
	Direct Shape - 170626_option_5.3dm - Material 2	Color RGB 0 0 0
	Direct Shape - 170626_option_5.3dm - Material 3	

Querying the Color of a newly imported direct shape, results in an invalid Color Instance.

However, once this material has a change, edited via the UI Material Browser, the color shows up correctly.
