RESPONSES

The Vatican is remarkably diverse when it comes to the world of entertainment; clubhouses, recording studios and locker rooms. The city remains an excellent hub to do school projects that focus on the field as mentioned above. There are many places that prudent students can establish their profiles in Vatican, but I would prefer C-Hotels clubhouses in carrying out school projects. C-Hotels are very accessible, and they provide every facility that can enable the success of any school project. C-Hotels are considered the heart of the Vatican since they are adequately equipped with beachside terraces, volleyball courts, gardens, Clubhouse, and all other facilities. However, in the school project, I would also prefer to visit the magnificent Roma Colosseum, they are wealthy with ancient history that can deliver success into the project.

Looking at the video, the video is a profile since it tells more about the ancient Vatican; the library was founded in the dark ages, and it does contain not only the church but various and essential documents in multiple fields. The library, therefore, can sufficiently serve as study resources to trace the ancient Vatican in comparison to the present and the changes the city has undergone. I enjoy the video since it is informative and it retains the local flavor showing the magnificence of the ancient Vatican. The video is entirely decorated with significant pictures therefore making the information presented really. In my essay, I can emulate so much from the video; the video conveys excellent images that can sufficiently fit my research and the entire information in the video shades light into the analysis as the whole.
