## BULLSHIT CLAIMS ABOUT PEOPLE I KNOW INVOLVED IN NVE PORNOGRAPHY

My voices will never let me ejaculate. That's why they started calling me GOD – it was sarcasm. Between 2009 and 2011 they would not let me ejaculate.

These days they only let me once every 4 – 7 months.

They keep saying that the people I am watching (I'm impotent – I can't get a girl [because I have been banned]) are people I know; and they look like them. SO I asked two of the people involved:

I hope you will forgive me for this email, but I offer it light-heartedly, and will summarise with a fantastic opportunity. I purchased some pornography from Tony at the shop I used to work at recently, and the DVD had the following details:

"Skinny Teen Twats"

Barracuda Bites

Iron Bull (Productions)

18 U.S.C Section 2257 Records custodian - R.; Wells

There was a scene starring Dasha starring a girl who looked just like you. Even my voices said it was you, and keep saying so.

If hypothetically it was you, do I have your permission to indulge in it without restraint? What I really wanted to suggest is: if you wanted a windfall of cash, you could pass yourself off as this model, contact the distributor (Barracuda) and or the producer (Iron Bull) and point out, that if you can prove you are in fact Dasha, then substantiate that against either your married name or your work name, in the absence of either of the two latter names being on the signed release form, both those companies are in breach of US and Australian copyright law, which therefore entitles you to the total revenue from sales divided by the number of other models (who can prove their real names).

As a full on advocate of third and fourth wave feminism, and as an impotent man, I wish and hope it was you (there's another scene as well), because everyday I pray to God that some local people are fulfilling their ability to have the best time possible, since I cannot.

When we catch up again soon, I'll show you my recently purchased vehicle. It's really good.

And from today – 1<sup>st</sup> July 2019

1st July 2019 1649 hours

Was attempting to gratify myself in the usual way using the usual ATS, and as has been since approximately the start of 2102, my voices started 'identifying' the talent in the NVE pornography I buy and own. Given their insistence on my suicide, brought about by slutting out and cashing up my friends, I have been compelled to write the following notes about the people appearing in my pornography. I must state that I am ready to argue about proposagnosia. Nonetheless, the following are my voices claims about the porn:

left to go up to the westfields shops to scab up some cigarette butts. There was a white CR-V with the interior light on having 2 occupants in my car park as I left. Thyen I was followed by a white Hyundai 4 door wagon/sedan from just after the horshoe bridge leading up to Edgworth-David ave. After picking up butts for approx 15 mins, then leaving the westfield car park near Westpac, the same 4 door Hyundai wagon was behind me. I turned left at the end of the horshoe bridge, theyu turned right. I then saw them at the red light on Pacific Hwy facing west. As such, I stared to my right to look at them on Pacific Hwy, diagonally opposite The Blue Gum (out the front of the electronics/computer shop.

Then left to go to the hospital, and had car following again, this time looked like silver car. Went past the hospital with car turning off intersection of hospital and burdette st. Went to coles and checked to see if open (to buy frankfurters). Upon leaving, large white SUV started up (had been parked on level blue, at southern end). It was parked next to a silver Hyundai wagon. The rego of the SUV was PTT?42. Left with SUV considerable distance behind me. When I crossed pacific hwy, to go down Unwin rd home, a silver Hyundai wagon tuirned into Unwin directly ahead of me - licence CSJ42T. It went down Unwin road and turned right into street opp playground, at bottom f Barker College. I continued home and parked, without event.
