Operation Disclosure: GCR/RV Intel Alert for September 25, 2018

RV/INTELLIGENCE ALERT - September 25, 2018

(Disclaimer: The following is an overview of the current situation based on intelligence leaks received from several sources which may or may not accurate. Other confirmed sources may also be included in this overview.)

Sources believe the worldwide redemption event (RV) will begin tonight, just prior to Mnangagwa speaking at the UN. *[Actually, Mnangagwa speaks tomorrow. —dle]*

If the RV begins, Mnangagwa will be able to announce the new posted RBZ rate.

The rest of the puzzle pieces for GESARA will then fall into place.

THE LAW OF MANIFESTATION, CLEARLY EXPLAINED IN DECLASSIFIED CIA DOCUMENT.

B. Patterning. This technique involves use of the consciousness to achieve desired objectives in the physical, emotional, or intellectual sphere. It involves concentration on the desired objective while in a Focus 12 state, extension of the individual's perception of that objective into the whole expanded consciousness, and its projection into the universe with the intention that the desired objective is already a matter of established achievement which is destined to be realized within the time frame specified. This particular methodology is based on the belief that the thought patterns generated by our consciousness in a state of expanded awareness create holograms which represent the situation we desire to bring about and, in so doing, establish the basis for actual realization of that goal. Once the thought-generated hologram of the sought after objective is established in the universe it becomes an aspect of reality which interacts with the universal hologram to bring about the desired objective which might not, under other circumstances, ever occur. In other words, the technique of patterning recognizes the fact that since consciousness is the source of all reality, our thoughts have the power to influence the development of reality in time-space as it applies to us if those thoughts can be projected with adequate intensity. However, the more complicated the objective sought and the more radically it departs from our current reality, the more time the universal hologram will need to reorient our reality sphere to accommodate our desires. Monroe trainers caution against attempting to force the pace of this process because the individual could succeed in dislocating his existing reality with drastic consequences.

Hmm, I am not sure why this was classified. I studied with the Monroe Institute when they were training DOD Remote Viewers, when I was a US Army Intel Officer in 1980. This same material is available in their Gateway Program, which still exists today. I did use it to get a new job—manifested exactly a new job that I desired, but got fired from the old one! I guess that fits the “dislocating his existing reality with drastic consequences”!—dle

Informative interview with Robert David Steele

Sep 25, 2018

Mr. Steele is a former spy (CIA agent) who understands the problems in the world today. **His main mission, as he puts it, is to fight the pedophilia, the Social Media Gestapo, and the Election mafia.**

He has many other insights as well, and he confirms that Brett Kavanaugh's accuser is "second-generation CIA."
