Edibles can also help you achieve your weight loss goals. Medical Marijuana, CBD and Appetite. Some patients who take medical marijuana report an increase in appetite. This phenomenon is often referred to as "the munchies," and it often becomes the target of marijuana-related jokes. When you want to lose weight, however, it can feel like a ...

“

Improving ourselves doesn't involve
'doing' anything. All that's required
is a letting go of habitual patterns of
thought and behavior.
