 - g. Joint Planning of Growth Global networks and activities in the nature of logistics and the available legal resources of the institution's categorization according to its own members.
 - h. To base their own decisions on the objectives of the democracy of all members of the institution and thereby to determine the joint development of the institution according to legally permissible objectives.
 - i. To develop joint business projects on behalf of the institution, on behalf of the individual institutional members commitments, and their planning, performance and organization.
 - j. Managing the administration of own bills, Financial account in Banks, owning the finances and the vault.
 - k. Trade on behalf of the institution.
 - l. To select regular contributions from its own members, if established by the democracies of the members of the institution.
 - m. Establish the institution's own assets and the production of business and representation goods under the name of the institution.
 - n. The institution has a duty to manage its own assets for the purpose of securing the risk-free function of Institutional Activities.
 - o. Expand equity capital from profits and invest in general projects.
 - p. Issuing and regulatory limitation of stock papers for investment co-operation.
 - q. Sharing information for the purpose of institution growth as a joint venture partner, thereby utilizing the common intelligence and logistics of all members of the institution.
 - r. To use the partnership institution as a member body and institution, open to all members of the institution.
 - s. Promote a joint growth of partnerships between members of the institution and the acquisition of new members of the institution among the same categorical subject matter of the institution.
 - t. Establish own records of office employees and workers' structures. Provide the organization's own official logistics for institutional purposes and management co-operation.
 - u. Establish its own logistics offices and archives.
 - v. Use an active global network of partnerships of all their own members, depending on their dependence on their own consent and the contractual obligation.
 - w. Each member of the institution may use its own foreign assets for the purpose of the business or development of a joint Institution group.
 - x. Establish agreements and performance with other non-institutional bodies and are not related to the institutional category.
10. Institution is an entity that is composed of management performance as the General Council composed of members of the institution, administration teams as well as staff who are composed of hired agencies or in the form of their own staff.
 11. The General Council The Institution is a powerful bond of a common democracy that determines the institution's development and activities, meaning the growth of the common name of the institution, and the decision-making about strategic activities.
 12. Each member of the General Council thus establishes its own team which

- functions as the Office of company member, in order to communicate with the institution and ensure the joint development of legal and strategic development issues.
13. The General Council, like any member, has the right to vote for one vote on democratic issues.
 14. The General Council is made up of all the members of the Institution and represented by officials of the Federal offices, thus ensuring the synchronization of institutional functions and the direct registration of institutional strategies prior to the administration of jurisdiction and the cadastre by federal authorities and the exercise of such legal responsibility.
 15. Federal Authorities have the right, in the event of stabilization or legal needs, to limit, modify, administer, develop or block the Institutions' interests and certain activities if this is necessary.
 16. An institution's administrative team may be composed of its own staff or, in the case of the hire of certified federation service agencies.
 17. An institution, such as an Administrative Team, consists of an observer who records all the functions and activities of the institution for the purpose of storing logistics in an institution archive allowing the administration of all legal and certification documents.
 18. The Notariate is the Institution's Office, which creates a register of all documents of the Institutions that are decisive for the development strategy and plan, joint agreements and legal moves, as well as the principles of the duties of the notarial registry under the principles of Federal Jurisdiction.
 19. The Internal Office of the Notary merely processes documents and declarations for the purpose of registration with an independent notary who is not a member of the institution.
 20. The Law Office, observes the activities of the General Council and develops the interests of the institution's strategies to synchronize with the federal law and the jurisdiction principle, and to enable the use of the principles of the Federal Jurisdiction for the purpose of institution development.
 21. The Accounting Office processes the economic movement of the institution and ensures the registration of accounts, receivables and expenses and profits for the purpose of its own autonomous administration of the function of the Institution, maintenance and communication with the Federal Authorities.
 22. The Treasury Authority may be created if the Institution regularly manages valuable and valuable raw materials and high finance at the level of which a safe and special service report is required.
 23. The Organizing Team of the Institution handles activities approved by the General Council of the Institution and thus ensures the establishment of cooperation with business or political and community entities for the purpose of implementing the plans created and for organizing cooperation between the Institutional Members.
 24. The General Council is formed, in the act of any entity establishing its membership of the Institution ID's Federation, according to its or its designated categorical foundations. The entity becomes a member of the institution or the first founder.
 25. Establishment An institution may be initiated by any person and a person abroad or within the Federation. The act of founding an institution will be registered with the Federal Authorities and designed for development. The Federal Authorities will designate the Institution category and issue permission to jointly organize members of the Institution under the law.
 26. An entity which has commenced its own declaration of membership of an Institution will also create its own executive authority from persons who will therefore represent the entity in communicating with the Institution and thus with other members of the Institution for the purpose of joint synchronization in the performance of the institution.
 27. Institutions originate in the use of legal systems recognized by the Federations and international law principles of mobilization of the world market;
- Like, Business Growth of Parties of the Force of the Federation**
1. Entities based in the territory of the Federation have the right to a joint declaration on the establishment of an institution and thereby to register an act of declaration before the Notarial Authorities and the Office of the

Cadastral Administration, the Magistrates' Department.

2. As a joint agreement on the establishment of a joint center of its own affiliates determining the joint performance of the institution's headquarters and a common capacity determining the capacity for joint performance.
3. The entities of the Federation have the right to use or lend their own assets and mobilizing forces for the purpose of the investment as the founding property of an institution capable of responsible autonomy of institution building with a common name as an institution of legal status.
4. Federation entities are also entitled to use logistics of the organized market between trade and productive subjects of the federation and abroad, according to deficit management as the founding property of the institution, capable of responsible autonomy of institution building with a common name as an institution of legal status.

Like, Logistics Growth of Foreign States Parties

1. As a joint treaty establishing a joint center of representative offices of independent status, determining the joint performance of the institution's headquarters and a common capacity determining the capacity for joint performance.
 2. Logistic support of the organized market using the autonomy of the legal name of the Institution.
28. The institution also establishes its own cooperation with the Federal Authorities, which therefore supports the growth of joint logistics for the purpose of creating investment and subsidy programs based on the government's own resources or investment co-operation of the central bank and other banks active in the federation.
