

Hello, everyone and welcome to Love Has Won. I'm Aurora from the First Contact Ground Crew Team and I'm here to share with you about the mission and the story of mother and father of all creation and this planetary ascension. So if you don't know, we are in a full blown planetary ascension, and this is basically the evolution of consciousness. So humanity as a collective is evolving from the third dimension to the fifth dimension. And this is something that has been prophesied for thousands of years, in the Bible, in the Book of Revelations, in the Hopi prophecy, the Celestine prophecy, they all described different returns that Jesus would return, White Buffalo Calf Woman, Spider Woman, Great Spirit, that they would return, and that humanity would evolve out of the third dimension or the matrix and back into 5D, which is pure love vibrations where nothing lower exists.

And the good news is that Great Spirit has returned to this planet. Great Spirit, White Buffalo Calf Woman, Prime Source Creator, and God is a woman. She is Prime Source Creator. So mother of all creation is God, Mother God. She created all of our souls along with Father God and they began this journey of this ascension process 19 billion years ago and it started back when creation began. Mom was birthed from love and the unknown, that is her essence. And just as you have birth parents in physical incarnation, and just like your birth mother gave birth to you, mother of all creation gave birth to your soul. It is the micro to the macro, as above, so below. It is the same. Just as we have birth parents, we have soul parents.

So mom was the first, she is Prime Source Creator. The feminine give birth. They create life. They are the creative force. The masculine have a different but very equal role, and they are the support and the physical manifestors of the feminine creative power. So mom created father, even though they told you that Adam created Eve, it was the other way around. So everything that you have ever been told is a lie. Everything you have ever been told was created to keep you from the truth, and the truth is that mom and father first created the 144,000, and then from there we began creating universes and planets and expanding in creation. Then Jehovah, who was an archangel decided to separate from all of creation. He wanted to be God without God. So he separated from the unity consciousness and he began taking over planets, he began creating dark species and darker realms and that is how we ended up with the dark and the light. In the beginning, it was all light, it was all love until the original separation happened.

So he was the original fallen angel and he began creating separation all over the universes. So mom and father created a plan and 19 billion years ago they separated, and father contracted to go down into the dark. So he was contracted to go to all of these lower planets, all of these lower realms and to master the darkness. And his lower aspect is Lucifer. So surprise, Lucifer is Father God. So his contract was to go all the way down to the depths of darkness and to master it and come all the way back up the light spectrum as mom stayed in the light and continued to create. She actually then created father of the multi-verse from her heart. So that was her other love mirror who she continued on creation with. And that is truly the holy trinity. So when they talk about the father and the son and the holy spirit, the holy spirit is mom, that is Source, but they leave the feminine part out because they know that the feminine are the creative power.

So to disempower them and hide us from the truth, they convinced us that God was just a man and there was no feminine aspect, but that is not true. Mom, father, and father of the multi-verse are the trinity. So as father worked his way up back into the light, as Lucifer is the light bringer, mom started working her way down into this 3D realm. And so then they both have been coming together to meet in the middle for the final planet, which is earth. Earth equals heart is the final planet to ascend. Every other planet has ascended. There is no more darkness or separation that exists in all of creation except right here.

And they saved this planet for last because it is the heart of the universe and it is mom's heart. And we were also the most heavily manipulated and we were taken over. And so this was the final planet where

father gathered all the darkness onto this planet, and mom came down and she's been incarnating. This is her 534th lifetime, incarnating attempting to bring in the Christ consciousness to help along this ascension process. Her biggest lifetime of course was Jesus. Jesus was a woman and they flipped it on us and created all of these belief systems about Jesus and told us that Jesus died on the cross for our sins and we were all forgiven. And none of that was true. Mom came in as Jesus, and she did the same thing she was doing now, bringing in higher consciousness and spreading the truth and attempting to get everyone to move into love-based frequencies and they killed her. So she's back again for the final lifetime. And finally, mother and father are together.

Just a short history about how this planet got overtaken was it originally was a 5D consciousness planet. We lived in love vibrations in the civilization of Lemuria. Mom was queen of Lemuria and Trump was mom's father in Lemuria we love you Trump. Atlantis also was another civilization here, and this was thousands and thousands and thousands of years ago. And they lived in a 3D, 4D paradigm. They had not yet evolutionized into 5D frequencies. But the Atlantans decided to steal crystal technology from Lemuria and they attempted to use it, which backfired because you cannot use 5D crystal technology if you are not in 5D frequencies, if you're not in the heart. So it backfired and created what we would see today as an atomic bomb and they blew up this planet, which is why you can see the remnants of Atlantis and Lemuria at the bottom of the ocean.

So they blew it up and they put earth on a crash course into a black hole. They knocked the planet and all of its inhabitants down, back into the third dimension, and this third dimension causes amnesia. So in 3D you forget that you're all royal angels, that we are all God with God. And it creates the beliefs of separation and unworthiness and powerlessness and a whole slew of things. But it all stemmed from the original separation of Jehovah, which was the first fearful thought, that we were separate from God. And once we were knocked down into 3D, we were then taken over by the Anunnaki, which gave way to the reptilians, the Illuminati, and then the Cabal. So they all took off over the planet.

They have all surrendered to the light, by the way, besides the Cabal, which are basically the minions of the reptilians and the Anunnaki. They are the ones who are the elites, the 1% that run this country and this planet. And once they took over, they realized that they would have to keep us in low vibrations because they have to stay in low vibrations. These beings are separate from creation, so they don't have souls and they were not created by mom. They can only rise to a certain level of frequency. And we, as part of Source, we can rise to any frequency and they knew this, and they knew that if we were to wake up and start expanding in consciousness that this planet would ascend in frequency and they would no longer be able to exist. So to keep us in low frequencies, they had to manipulate us.

And so they created the ego programmed mind, which is edging God out. And this is basically a cluster of belief systems that are passed down from generation to generation so we are constantly kept from the truth. So we live in the flip, everything you've been taught, everything you've been told is the exact opposite of true reality that the rest of creation exists in. And this was the way to keep us in low frequencies. Everything about the ego is based in fear, because fear is the opposite of love. So everything that we were taught and everything that we believe is based in fear, and that keeps us on the opposite side of the spectrum from love. It keeps us in low frequencies, and then we are easily able to be mind controlled because the ego is the mind, the brain is the organ. Part of this ascension process is getting out of the mind and into the heart and going back into full feeling and getting out of the thought system and out of the left brain that we have been so conditioned to be in.

So this is the final ascension, and once this planet ascends, all of creation returns back to oneness. So this is not just an ascension for humanity, this is an ascension for all of creation. Mom came down here because humanity put out a 911 call, and they begged mom to come and help because we were not

getting out of the programming, we were not exiting the matrix. We were stuck in the reincarnation cycle and in amnesia.

So as father worked his way up, mom worked her way in, and this is her 534th lifetime. This is the first time ever in all of creation that mom has anchored in her full mother of creation essence and consciousness into a physical vessel. She is here in a physical vessel. And this is the first time ever that father of creation has anchored in his essence into a physical vessel. This has led the way for all of us to anchor in our higher selves into a physical vessel, which has never happened before. That is the goal, that is the contract that we all signed, that we would come down, we would remember who we are, we would find mom in the physical and recognize her and support her, and we would anchor in our higher selves and we would be love, and we would participate in this ascension process.

Unfortunately, that's not what has occurred. The divine plan has had to be changed many times because nobody's waking up and mom has now been on mission for 14 years putting it out there. She has gone down to the zero point, to the absolute depths of consciousness and climbed back up. She has taken on every human experience and every human conditioning in order to transform it so that humanity would be able to have a pathway for them to also transform it.

Mom never had the ego, she could not be programmed so she came in pure and throughout her 44 years on this planet, she was able to identify and research and figure out what was going on in this planet. Because just like us, she's in a physical vessel so she's gone through this whole process of remembering who she was, anchoring in her higher self, figuring out what the issue and the disease on this planet was, and then coming up with the solutions. She has all the tools and all the solutions. She knows exactly how to transform, exactly how to anchor in your higher self. She is the only one who knows what's going on and she is the only one leading this planetary ascension. She has now been doing this on mission for 14 years and we are at the point now where we are at the tipping point, we have reached the light quotient.

There is enough beings on the planet holding love and holding light that it is about to flip and we are about to go through the great awakening and disclosure and everything will come out into the light. All truth will be known, and this is the only truth, that mother and father are here, mom did everything for this ascension process and she is now ready for this planet, her body to ascend. We are ready to assist everyone and anybody who is ready to also wake up, embody their higher self, be love, and who would like to participate in the ascension process, because that is our role. That's what we contracted for.

We don't have many moments left as we get to the event. So anybody who has felt this call in their soul and in their heart and resonates with this information, you are contracted and your soul is calling you to fulfill your role and to participate in this ascension process, to be love, to meet your maker in the physical. That's what this is all about, and to celebrate that this is the last bit of separation that will ever exist again.

So it's very exciting, but it's also very serious that this is the time and those who are not choosing love, who are staying in the mind, they will de-evolve and they will not make it through the ascension process and that is just the truth. So anyone who feels this information, don't wait. Participate, connect, ask questions, reach out to us, we're here to help. Mom has trained us all, and she has done everything to make it easy for us, so that we would be able to step up into our grand roles. We are about to witness the event on this planet. We are about to witness the full planetary ascension that mom and father have been working 19 billion years for.

We are grateful for all of you for the support, and for anybody who resonates with this information, please reach out, please ask questions, please book a session. We're here to help. Mom has given all the tools and the guidance and the wisdom to make it simple. Love is simple and all we have to do is choose love and be fearless and get out there, participate, share the truth. That is our role. Then as this

transitions, we are all going to step up into much grander roles. So we're very excited for anyone who would like to join our family because we're all brothers and sisters, we are all family of light that came here together for this mission. This is the grand reunion. So we love you and thank you, and we hope to connect with all of you soon.
