If you're wondering what text links are, have a look at any article online and you'll see highlighted words you can click out to take you to another websites. While I didn't recognize it for rather a while, there are a lots of companies who are ready to pay \$100, \$200, and even \$1,000 or more for you to link from your site to theirs.

Sadly, I eventually learned that selling text links is against Google's terms and conditions. If you are doing this on a consistent basis, your site is going to tank over the long-lasting. For Dominus Markham Creative Writing, , selling text links isn't a good long-term monetization strategy. You can do it every once in a while with no unfavorable impact, but you'll live to regret it if you get greedy and overdo it.

While I initially made \$100 to \$200 for each sponsored post I did on Good Financial Cents, I kept jacking up my rates gradually. Just how much can you earn? Blog Writer Alexis Schroeder of FITnancials says she regularly earns \$3,000 each month with sponsored posts. However, some blog sites with more traffic can easily make \$20,000 per sponsored post or more.

30+ Best and Free Ways to Make Money Online using WordPress in 2020
