Terralith 2.Zero

Terralith makes a huge adjustments to Minecraft without including any new blocks to the sport. This makes it suitable even with vanilla shoppers. It provides 85 new biomes for players to discover. It also adds canyons, shattered biomes, floating islands, and deep ocean trenches. Discover it for your self!

Modern UI

Modern UI is a pretty simple mod that truly makes a major improvement in the overall Minecraft quality of life. The mod cleans up the overall UI by adding cleaner fonts which can be easier to read and blurring the background if you open your stock in-recreation. It also provides you a slight FPS boost.

Quark

If better high quality of life that doesn't change the vanilla essence of Minecraft is what you're in search of, Quark is the right alternative. It's one of the crucial downloaded mods in

Minecraft, and it's not hard to see why. Quark adds a ton of options that make your gameplay extra thrilling and environment friendly. Double-doors open with one click, farming is extra convenient, you'll be able to carry items in your boat, pet your pets, face new mobs, and tons extra.
