[City]

Dear Sir/Madam,

this year, I will be starting my undergraduate studies at [European target uni]. I have only recently been introduced to [X Bank] by fellow alumni from my school, but was impressed with the client-centric culture and mindset to which [X Bank]'s framework was founded right away. Hence, I am interested in obtaining an insight into Investment Banking and experience your culture to prepare for a possible career at [X Bank] after participating in your Insight Program.

[X Bank] differentiates itself by steadily following the latest innovative approaches. Creative solutions benefitting employees and clients alike are targeted. Leading to globally renowned deals such as the [Deal name] takeover, which lead to pinnacle advancements in the [industry name]world. And while operating in more than 50 countries across the globe, the company still focuses on vernacular work, making [X Bank] a symbol of trust and reliability within the world of business.

Having been exposed to the financial services sector while participating in external university-level courses throughout my secondary school, I was able to blend my experiences with a fundamental understanding of economic and financial aspects. Moreover, I was able to further enhance this skills by partaking in Accounting and Finance courses during my exchange year in the United States as well as at events such as "[event name]", where I developed investment strategies together with experts from Deutsche Bank and Blackrock. As a result, my interest towards investment banking has been raised ever since. I am absolutely fascinated by the result-driven environment and the steep learning curve. I have also come to the conclusion that Investment Banking allows me to take on new challenges, while also giving me the opportunity of having a visible impact on society and its many industries.

One of my key assets is leadership skills. During my four years of serving as one of the board members of the "[YOUTH PARTY]", the student group of the party "[Name of PARTY]", I was able to gain a great deal of leadership skills. The coordination of local groups of the initiative "[NAME]", a stock simulation aimed at secondary education students with 12,000 active participants, also helped me to increase this skill. What is more, I have also pursued an internship at [FIRM NAME], gaining an insight into asset management and working in insurance and wealth management. Thus, my accounting and financing skills were further solidified, and a foundation of valuation and Excel modelling skills was established.

Finally, my in-depth academic studies have helped me improve my analytical and critical thinking skills. This, ultimately, lead to me winning an award at the national science competition "[competition name]" in cooperation with the [company name].

I am looking forward to meeting you and experiencing Investment Banking at [X bank]. Thank you very much for your time and consideration.

Sincerely,
[My name]
