When you order to [buy guns with bitcoins](#), you must fill in your delivery address and possibly provide the home address. If you don't want that to be delivered directly to the doorway, it is better that you at the earliest contact with the seller using the contact details you will find easily mentioned on their website. Send them an instant message or email them or call them and clear everything about gun delivery. You can decide the location and meet the delivery boy to receive your gun secretly. However, if it's not possible to contact the seller for this, you can contact the delivery boy and tell him where you will get your product from him. Before reaching your doorway, he makes a call to you to check whether you are there at your home or not. When you get the call, ask him to be at your selected location and from there, you can take your gun from him.

#### 3- Don't buy if you are underage-
