HCO BULLETIN OF 6 JUNE 1984

MISSED WITHHOLD HANDLING

Ref:	Tape: 6211C01	The Missed Missed Withhold
Modifies:	HCOB 30 Nov. 78	Confessional Procedure
	HCOB 11 Aug. 78 I	Rudiments Definition and Patter
	HCOB 15 Aug. 79	Flying Ruds

Part of the routine procedure that is expected of any auditor pulling a missed withhold, whether as a rudiment or in Sec Checking, is to get “who missed it”—the people who missed the withhold—and what each of them did to make the PC wonder whether he or she knew. Sometimes, however, the rudiment keys out and F/Ns before the auditor has gotten to the “who missed it” step of the procedure.

Such an F/N is indicated, but you must then go forward and get who missed the withhold and what that person did to “miss” the withhold on the PC.

This handling can considerably widen the F/N and blow the missed withhold but good.
