## **Summary of Ninja Accounts**

Just want to start off by saying this ebook is protected by copyright and no content shall be shared.

This ebook is intended to show individuals how to create stealth accounts it's mainly for educational purposes only and this book and contents are not liable.

The reason this ebook exists is to show how to stop being banned in EBay and how to setup and remain in business.

### **How to get started.**

In this section you will learn how to get started on setting up your Ninja Accounts so you can make unlimited EBay & paypal accounts without ever being banned again.

First you will need a new identity for example a new name, new address and new email account. We will be covering everything you need in this ebook so please make sure you follow along step by step.

The best method to date is proven and tested and consists of creating a fake name, signing up to a po box virtual address service and then ordering your new online bank account through your new p.o. Box and getting your mail redirected to your real address.

That way you look like real person and the accounts you create will last a long time. First head over to gmail.com and create a fake email address.

Once you have registered a new email address in your new name, now you should head over to a p.o. Box premium service provider. Fill in your details with your fake name and put your real address if it asks. Now you should be provided with a real address you can use for business or personal matters.

## Protecting your privacy, our commitment

Your privacy is of paramount importance to us and something we take very seriously. We're subject to the General Data Protection Regulation and will never disclose your information to anyone and will alert you to any requests we might receive.

## **Tip #1**

**Signing up for your first p.o. Box is vital if you want to stay anonymous and safe if you have been banned from eBay & paypal in the past. Giving you a fresh start that doesn't effect your ability to create solid stealth accounts.**

Its super simple and smart way to sign up for a stealth bank account today for just as little as £5. No verifying needed.

We are now an official UK bank! We've been there helping small businesses and consumers with better banking for over 15 years.

[Find out what becoming a bank means for you.](#)

## The start of something big

We are now an official UK bank.

Our customers have always been our priority and we're now in an even better position to be a helpful, trustworthy partner that you can always rely on.

## Simple, smart banking

### Bank accounts that work around your needs

Sign up and have a stealth bank account that is 100% effective for building new EBay accounts and paypal accounts.

You can order unlimited cards.

There is business plans for individuals who need more cards.

Simply visit [www.tinyurl.com/onlinebank91](http://www.tinyurl.com/onlinebank91) to get a discount and bonus for signing up through my personal link.

It's really easy to sign up all you need is a address preferably you can use your new p.o. Box address and get the card forwarded to your old address.

Or you can simply order your new card to your current address as paypal will not be able to track your address from these cards.

Fully tested and 100% satisfaction.

## **Tip #2**

**Applying for a online bank account such as this one is same as a virtual bank account and doesn't require a credit check or effect you as it's similar to a pay as you go virtual gift card.**

Now you have signed up for new p.o. Box and ordered your new card with the link provided you will have everything you need to start creating fresh new paypal account & EBay account.

Only extra things you need will be a new number but there's a quick trick around this by buying another SIM card from any supermarket and use that number to use on this new account.

If you want to go even more stealthy you could use a VPN service which is a virtual private network.

It will allow you to connect to a server that changes your IP address that EBay and paypal see when you create an account and go into there servers.

In an ideal world you wouldn't need to change your IP address but because there's so many scammers and company's are tracking you every step of the way it's best to stay ahead of the game and use a VPN network that protects your personal data that your devices transmits without you ever knowing.

This is why I recommend a few good VPN services you can use today to at least help you stay annoyous.

There's always free ones but not all free services are protecting you but some are so I'll reveal the one free VPN I would use to get you started.

Windshield is a great VPN service that is compatible for windows, Mac and Android devices.

Simply go to [tinyurl.com/winduk](https://tinyurl.com/winduk)

To sign up and get free 10gb data and full protection allowing you to connect to unlimited servers.

### **Tip#3**

**Best thing about using these Virtual private networks when setting up stealth accounts is the fact that when you connect to the internet you will get a random IP address meaning paypal & EBay will never know who you are and allows you to create different accounts with ease.**

### **Create Your New Ebay Account**

In this section you will put everything together and create your eBay account that is 100% ninja and will allow you to create an account with anonymous information and begin the process of

building up your account to get top rated seller or at least increase your selling limits.

Because as you may know when you create new Ebay account you only get certain selling privileges and that can be only allowing you to sell up to 10 items in one month with only maximum earnings up to £650.

If you want to use these ninja Accounts to make some serious income then you need to follow these methods in this section and you will learn how to extend your selling privileges, increase your seller feedback, increase Sales and last but not least maintain your Ninja account so you don't get banned with my proven methods.

#### **Tip #4**

**Fastest way to increase your selling privileges is by increasing your star feedback on your account. Best way to increase feedback is buying cheap penny items on**

**auctions or buying £1 items and increase stars that way  
to get your feedback over 30 - 40 feedback stars.**

Okay now we have a new identity including a new name, new address e.g po Box address and are new email address we are going to plug that into are new EBay account.

Simply go to [www.ebay.co.uk](http://www.ebay.co.uk)

Then [paypal.com](http://paypal.com)

Click on Create an account and start filling in your information.

You should receive your po Box address and VBC details

1 -3 days after signing up for those services.

It's simple & straight forward process.
