

Watercolor and Glue Owl Gigi's Art Explosion At Home

Materials:

White paper
Pencil
Bottle of glue
Watercolors
Brush
Owl how to draw pattern

How to make it:

1. Sketch owl on white paper with your pencil
2. Trace over lines with glue. Work from top to bottom so your hand does not get into the wet glue
3. Let glue dry (it may take overnight)
4. Paint the different parts of your owl with your watercolors. Make the owl fun and colorful
5. The colors will not bleed together because of the heavy glue lines
6. Finish the painting by painting the background, put the owl on a tree branch or make up your own background
7. Let the painting dry and enjoy!!

Share your finished paintings with me!! Miss Jennie at ablej@comcast.net or text photo to 317-696-3843
