Toy Story 4 Full Movie Review

Toy Story full it's about discovering for ourselves all the good we can do even when it seems like we have no reason to be here to me this is cemented by the newly created character coming in and asking why they exist.

We don't really know why and life is about setting out in finding a path is that not only means a lot to us also under this overall. It's a really powerful message that definitely sticks with you lost a probably still don't know whether we needed to go back to this universe this sequel still pulls it off an outstanding fashion what do you think about it.
