

Dear Customer,

NASSETTI Tıbbi Cihazlar San. ve Tic. Ltd. Şti., is the first company in Turkey addressing the medical market in a professional way. We are a manufacturer and distributor of products used in critical care environment. Our services include; designing, manufacturing and installation of central medical gas systems, patient bedhead units, ceiling pendant systems, nurse call systems and ambulances as well as distributing surgical tables & lamps, sterilizers, emergency equipment from the companies leading the market.

Founded in 1984 and wholly owned by Simed Health Care Group B.V. since 2005, Nasseti has grown to a company with an excellent team of professionals of over 90 today, mainly constituted of engineers at the main office and expert technicians at production and sites. Throughout the years, many projects have been successfully executed for public and private institutions, governments and international organizations.

From the very first day, Nasseti's mission has been "to offer its clients not only the best but also cost effective, wise and lasting solutions". Nasseti is committed to continue in this path to achieve successful growth in the future, by maintaining and improving its reliability and flexibility and respond to technology. The definition of a customer for Nasseti is way beyond the basic definition, in fact may rather be called a partner who will contribute to its success in the territory.

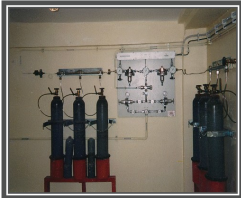

Our activities over the past 26 years have extended beyond the borders of Turkey, due to the fact that conformity for internationally accepted standards has been our primary concern in all our work. Today, Nasseti is able to provide solutions according to the standards applicable in Europe (EN, DIN, etc.) or the United States (NFPA, KKK-1822, etc.) or the United Kingdom (BS, HTM, etc.). All our products are CE marked and we are an ISO 9001 & 13485 certified company. Our range of services is summarized below:

## ■ **Medical Gas Systems, Patient Bedhead Units and Ceiling Pendant Systems**

Medical gas systems, one of the most vital systems in hospitals - ruled by various international standards, have been a major part of our work since our foundation. We are able to design, supply and install systems in accordance with all different local standards applicable in different countries, such as NFPA of the U.S., EN of Europe, DIN of Germany, BS of the U.K., etc. Patient bedhead units, an essential part for medical gas systems, we manufacture at our facilities in various types.

Our references in medical gas systems and patient bedhead units installations, exceeding 50,000 beds is comprised of more than 60 projects in prominent university, military and private hospitals in Turkey; 15 projects in former C.I.S. countries while our patient bedhead units are also exported to European countries like Italy, Spain, Poland, Ukraine and Middle Eastern countries like Jordan, Saudi Arabia and Libya in I.M.Q. standards.

## ■ **Nurse Call Systems**

We have three types of nurse call systems, conventional, computerized and electronic systems, that are our own productions and these have been installed in numerous hospitals both in Turkey and abroad. Additionally, our product range also includes the nurse call systems of a highly reputed U.S. manufacturer and these systems represent the high end in the technology in this field.

■ **Medical Equipment (Sole) Distributor**

For the Turkish market we distribute a number of top brands. We have a good product portfolio that covers a wide range of products required by healthcare facilities in operating theatre environment. Our partners include among others;

**TRUMPF**

**TRUMPF Medizin Systeme GmbH + Co. KG (Germany)**
