

## MURDER BY CALCIFICATION – THE SEAT OF THE SOUL – THE THIRD EYE

### SEAT OF THE SOUL HAS BEEN VERIFIED

These files give the connection or clues that the same PLAQUE calcifications that give us high blood pressure and heart attacks were blocking the power of the seat of the soul.

The Protocol to decalcify the 3rd eye is not hard to do.

The knowledge of the power of the third eye has been known for hundreds of years.

But today the evil people in the FDA do not want you to have a clean and clear **Pituitary Gland and PINEAL Gland, in order to have a free and open 3rd Eye.**

**Here is the truth behind the reason that the Collectivists decided to add fluorides to almost EVERYTHING.**

Way back from 1933 to 1952 they learned that EDTA also removed the calcification of the Pituitary Gland and PINEAL Gland, and created people with a free third eye that were no longer just ordinary human beings or as they were before.

There is another discovery that shocked and made them afraid. The children of completely detoxified parents with bodies that were free of heavy metal poisons or what I call PURE BLOODS GAVE birth to children who were born with many abilities. It also made them angry that people were healthier and did not have all the many other illnesses that the hive minds loved to see.

As these children grew up the Hive Minds watching them, discovered that the EDTA was amazing, and as more and more people continued to take EDTA, eventually the parents taking EDTA married and had new children growing up with physical and mental powers, talents, abilities, strengths, insight, etc.,

That frightened the HIVE MINDS because if you know anything at all about the collectivists and their depopulation agenda, they had to stop this racial threat to their collective.

Their solution was to calcify the people again after they found out about FLUORIDES.

Then they used another deadly poison to help them do it. They added an iodine remover called Arsenic and also bromine.

Arsenic also removes natural vitamin C, which once removed, will calcify the entire body.

**INFANTICIDE --- GENOCIDE FACT** -- Fluoride is an abundant mineral toxic waste product of aluminum, phosphate, cement, steel and nuclear weapons manufacturing. It is put in all infant formulas, vaccines and products as an infanticide.

The Collectivists also discovered that when combined with other heavy metal poisons, the more they poisoned our bodies with other kinds of chemicals, toxins and poisons; very rare illnesses became commonplace and killed and/or disabled children, infants and newborn babies, and the elderly.

Another fact to consider is that each and every one of these heavy metal poisons, toxins and chemicals eliminates food nutrients out of your body and produces another nutritional deficiency illness.

## ARSENIC ANTAGONISTS

These include iodine, selenium, and vitamin C. (calcification)

Too much Arsenic will remove or replace iodine, selenium, and vitamin C in the body and this is another way it poisons the body. By removing Iodine, fluorides will accumulate in the brain and pineal gland, and will cause a deficiency of selenium and Vitamin C. When Vitamin C is gone, your veins will not heal and calcification will get worst'

Fluoride is a deadly cancer mineral. It is highly toxic and is immediately deadly to all small animals, and is the major ingredient in rat poison. It is the main waste product of aluminum manufacturing, and will bind with aluminum and cause brain cancer and total calcification of the pineal gland.

[http://www.answers.com/Q/Is\\_sodium\\_fluoride\\_a\\_byproduct\\_of\\_aluminum](http://www.answers.com/Q/Is_sodium_fluoride_a_byproduct_of_aluminum)

**They created GMO foods and removed natural IODINE in all GMO wheat products and replaced it with Bromine.**

**Then they replaced natural iodine with IODIDE, which helps with the calcification of your Pituitary Gland and PINEAL Gland.**

The role of fluorides is very evil. Fluorides were put into our drinking water and in the canned baby foods, baby formulas to kill us slowly and to disrupt the calcium absorption to ensure calcification and mass murder.

Calcium Fluoride comes from the earth and is naturally occurring. Sodium Fluoride is a hazardous by-product of the fertilizer, aluminum and nuclear industries. Sodium Fluoride is anywhere from 30-120 times deadlier than Calcium Fluoride.

They even add many ways to kill us -- Hydrofluosilicic acid, the chemical often used to fluoridate drinking water, is an industrial waste that contains lead, mercury, cadmium, arsenic, aluminum, benzene and radioactive waste material.

**6. Iodine is no longer added to commercial breads.** Until the 1980s, iodine was routinely used as a dough conditioner in commercial bakeries. This actually provided a significant amount of extra iodine for many people. Due to fears about getting too much iodine, (which were probably totally fabricated), the government forced bakers to stop using iodine and instead to use bromine, a poison, to make bread. Bromine is also one of the iodine antagonists that makes iodine deficiency much worse.

**Fluorides.** The main source today is fluoridated water supplies. Not only is the water a problem in most major metropolitan areas, but the water is then used to make many food products, from breads and other bakery goods to chips, dips, pickles, beverages and thousands of others.

In addition, the fluorides from the water have found their way into the water table and irrigations systems of most of the United States. Thus, the fluoride levels in all the crops grown in America are too high.

Foolish public health authorities keep adding toxic fluoride compounds to the water supplies, even though all the food products in the nation are now basically contaminated with this extremely toxic element. For more information about the abomination of water fluoridation, read [Water Fluoridation](#) on this website.

The concept of the replacement of vital trace minerals with toxic metals is discussed in several other articles on this website, including [Toxic Metals](#) and [The Theory of Nutritional Balancing](#).

### ***IODINE HELPS REMOVE ALL TOXINS***

Iodine supplementation has a wonderful effect on all the toxic metals in the body. It can also help remove toxic chemicals and infections. This occurs for several reasons:

**1. Iodine opposes or antagonizes the halogens.** This has been discussed above. Taking iodine often leads to the elimination from the body of bromines, chlorine, fluorides and other metals as well.

**2. Iodine improves thyroid activity.** As thyroid activity recovers, the body is far more able to eliminate all the toxic metals. This is the main mechanism behind iodine's ability to reduce the toxic metal burden in the body.

**3. Iodine is a germicide – antibiotic, antibacterial, antiviral, antifungal and anticancer.** It appears to help the body fight off many types of infection. This occurs partly by improving thyroid activity. However, iodine can also act as an anti-oxidant, according to researchers.

This website is important to study and learn by hard. It gives the clues to heal any illness by knowing that EVERY nutrient either gives or takes life away if too low or too high in your body.

That is why every person should take a hair analysis test to find out your nutrient and toxic profile.

-----

The collectivists continued to think of ways to stop the creation of children with increased powers, talents, abilities and strengths.

If you go back in history you will learn that the THIRD EYE is in all symbolism of the HIVE MINDS.

There are many ancient cultures that speak and know about the power of the third eye.

Back then their governments did not have a collectivist hive mind depopulation agenda like we have now.

Hundreds of years ago, they had parents with PURE BLOODS who gave birth to extraordinary children.

These children were the chosen ones: Heroes, scholars, leaders, inventors, or the blessed ones in our world history.

The ordinary common people hundreds of years ago hardly ever went to schools or even had books to read and learn anything. When they had kids being born with extraordinary or increased physical and mental powers, talents, abilities, strengths, insight, etc., they were worshiped as heroes, leaders etc.

Another lie was placed upon us today when we go to the EDTA CHELATION THERAPY DOCTORS, who are the only ones granted the right to do Chelation therapy today. They lie that artificial or chemical non-food-based nutrients are the only ones allowed for us to take in a EDTA session.

[https://www.alternativesforhealing.com/business-directory/wpbdp\\_category/chelation-therapy-practitioners/](https://www.alternativesforhealing.com/business-directory/wpbdp_category/chelation-therapy-practitioners/)

A hundred years ago mankind did not have chemical nutrients, but only good diets that contained iodine such as: Seaweed, kelp, dairy, tuna, shrimp, cod, eggs, lima beans, cottage cheese, dried prunes, natural pink sea salt.

But today the oceans and fish are contaminated with Mercury, our cows have heavy metal poisons in their meat and milk, egg farmers add arsenic and/or cyanide to the chicken feed, and all that is left is the possibility that lima bean and prune farmers do not spray with any toxic chemicals.

And the other lies were that you could not take more than 3 grams of EDTA in a single session. The Germans invented or discovered EDTA to save the sick workers that were sick and dying with LEAD poisoning.

Another thing that they will not admit, is that **ARSENIC**, and mercury, lead, aluminum and cadmium and **FLUORIDES** can and does cause **DAMAGE TO DNA** and causes birth defects and infanticide.

The damage that the hive minds want is to stop the third eye from being cleaned and freed to produce the POWER of the seat of the soul.

### THE SEAT OF THE SOUL

THE CHILDREN BORN WITH THEIR DE-CALCIFIED **PITUITARY GLAND AND PINEAL GLAND** AND THIRD EYE WERE AND STILL ARE BORN WITH AMAZING PHYSICAL AND MENTAL POWERS, TALENTS, ABILITIES, STRENGTHS, INSIGHT, ETC.

### THE SIXTH CHILD OF GOD

These children that are born free and clear of all poisons are called the sixth child of GOD. They are also called Super Humans because they have the power of the soul in them.

Their amazing abilities far exceed thousand of normal humans.

In countries without a depopulation agenda, you can find thousands of these super humans.

To find them on YouTube, you must search only from other countries that do NOT have a depopulation agenda. Most English speaking countries have a depopulation agenda.

Enjoy them as they are the hope for humanity!!!

All these kids are SUPER HUMANS with the power of the 3<sup>rd</sup> eye.

Keep on looking and you will find the ones with mental powers or with the powers that will convince you that the seat of the soul is real.

As promised the protocol to remove the calcifications of the **Pituitary Gland and PINEAL Gland is simple.**

**Take: EDTA, chlorella, glutathione, Parsley, hair analysis tests every three months, eat** Garlic and onion, Vitamin C, Food-based nutrients with minerals, and taking a hair analysis test to find if you have the heavy metal poisons called mercury, aluminum, arsenic, or a low count in selenium.

Use chlorella to remove the fluorides from your brain. Take the herb SENNA if you get constipated by using too much chlorella.

Use the links SUPPLIED to bring your good minerals in balance.

Foods rich in glutathione include spinach, asparagus, garlic, avocado, strawberries, squash, zucchini, potatoes, melons, grapefruit and peaches.

## Detoxifying reactions using EDTA Chelation

When you detoxify through EDTA Chelation the toxic heavy metals will be dislodge from many areas of your body and will be released back into your circulatory system, then flushed out through the kidneys or the bowels. When this happens, your body will respond and some of the more common “negative” effects are lethargy, sleepiness, muscular pain (due to increase circulation), loose bowel movements, constipation, headaches, running nose, slight dizziness, low-grade fever and other flu like symptoms.

But these symptoms are much less in people that take plenty of food-based nutrients with minerals, glutathione, Garlic, parsley and Vitamin C from only natural fruits and vegetables and follow all other diet and PH balance instructions and eat plenty of fruits, vegetables etc., and avoid all toxic foods that have heavy metal poisons, artificial colorings, flavorings, and avoid all junk foods that are listed in this data of self-healing methods. If you have any side effects at all, do not drive or operate any machinery and/or stop taking EDTA for a few days. A few days rest will give you time for your body to reset and relax. When you have rested and feel fine or better, only then can you increase your EDTA and not before.

Calcification of your veins, arteries, capillaries along with toxic heavy metals have been associated with diseases such as Alzheimer’s, high blood pressure, Atherosclerosis, Hypertension, Diabetes, and Prostate issues and many other illnesses.

But the majority of people will actually feel “positive” reactions including increased energy due to increased blood flow and oxygen carrying potential, clarity of thought, lower blood pressure, better eye sight, increased ability to urinate, and an increased sense of well-being. .

Both positive and negative reactions means that EDTA is working!

Combining Glutathione with EDTA creates possibly the most effective detoxification product combination currently in use.

**Healing the 3<sup>rd</sup> eye is only possible if you learn that the same conditions that destroy the brain like Alzheimer’s and erectile dysfunction are connected to healing and cleaning your third eye.**

**<https://www.webmd.com/cholesterol-management/features/can-low-cholesterol-keep-your-brain-healthy>**

**Your brain’s organs are fed by and is composed of about 30% of cholesterol and if you don’t included it to clean the brain the organs won’t work properly.**

### **METHODS OF HEALING YOUR PINEAL GLAND AND RECOVERING YOUR ERECTIONS AND MEMORY BECAUSE OF ALZHEIMER'S DISEASE AND MANY OTHER ILLNESSES:**

THERE ARE TWO THINGS TO ADD HERE FOR YOUR RECOVERY CONCERNING ALZHEIMER'S DISEASE.

"COCONUT OIL AND EGG YOLKS"

Include 1/4 cup of coconut oil in your diet, slowly increase it to 1/2 cup a day. This will reconnect the broken or disconnected synapses in your brain that causes Alzheimer's disease. Start including raw uncooked egg yolks in your diet.

**Protocols for Alzheimer's:** EDTA, Chlorella, food-based nutrients that includes minerals, egg yolks, coconut oil, glutathione, Garlic, Parsley, hair analysis tests every three months, Vitamin C from fruits and vegetables, all of these protocols must be done to recover completely. Alzheimer's is caused by calcification of the veins, arteries, synapses and cells of the brain. it is not caused by fluorides.

Your brain is made of a high percentage of cholesterol and it is constantly being used up. Without feeding your brain cholesterol, coconut oil, and removing the calcium deposits, your brain's size and memory will decrease. FYI: The blood clots that kill people with Alzheimer's are caused by calcification of the veins, arteries, synapses and cells of the brain. In addition, Alzheimer's patients' complications and death from pneumonia, is due to the calcification

cutting down the circulation and volume of blood, which will make a person colder. The better and faster blood flow warms the person.

Start with three raw and uncooked egg yolks. The egg whites are optional to start with.  
SLOWLY INCREASE THE EGG YOLKS TO 9 OR 12 RAW EGG YOLKS A DAY.

-----

EDTA opens all your veins, arteries and capillaries to produce a better blood flow. But for men with **Erectile Dysfunction**, it means that the cavities in your penis will fill up with blood more readily. EDTA gets rid of your weak erections and you gain the power to have an erection on demand, maintain it for longer and experience better sex.

**If you have Erectile Dysfunction** - you will have better erections in the morning. Go get a hair analysis test online. Find out the heavy metal poison of which you suffer from. Most likely, it will be #1 Cadmium, #2 Lead, #3 Aluminum Or #4 Will Be Mercury. These are the brain's erectile dysfunction destroyers.

-----

**Protocols for Erectile Dysfunction:** EDTA, Chlorella, food-based nutrients that includes minerals, 9 to 12 raw uncooked egg yolks a day, glutathione, Parsley, hair analysis tests every three months, Garlic, Vitamin C from foods, a hair analysis test must be done to find the heavy metal poison and any deficiency of minerals that is killing your erections. All of these protocols must be done to recover completely

The heavy metal poisons also stay lodged in the calcium deposits thru out all parts of your body, that is why EDTA is so important because it removes the deposits and the poisons that are stuck there. EDTA and chlorella are the life saving couple.

-----

It will take time, but the path will produce many good results for you in this lifetime and for any kids in your future.

If both you and your spouse get 100% clean of all poisons, you will have an amazing child.

A clean child is rarely seen today, many are born sick.

Good luck.
