

Augment Anabolic Hormone | Best Steroid Suppliers

[CLICK TO VISIT OUR ONLINE SHOP](#)

AUGMENT™ is a third generation anabolic agent/hormone amplifier developed exclusively for pH Labs by renowned anabolic scientist William Llewellyn. AUGMENT™ works by increasing testosterone and IGF-1 sensitivity in muscle cells after training. These two hormones are the primary regulators of muscle protein synthesis. Increasing their activity within the muscles means more protein can be ... THE ONLY SKELETAL anabolic agent currently approved for the treatment of low bone mass in the United States is human PTH(1-34) (teriparatide). Daily injection of PTH increases bone mass in postmenopausal women, men, and patients with glucocorticoid-induced osteoporosis (1,2,3).
