I have attended classes at A?? since 9th grade. Studying here has been a valuable experience. The Study material given to us is comprehensive and result oriented and the faculty is fully dedicated to the students and has helped me achieve my maximum potential. I am grateful of ASC for their immense contribution to my success in the board exams. I am thankful to ASC teachers and staff for their supremely good support and guidance.

I would like to thank ASC for the love and support it has given me throughout my academic years. The whole curriculum of teaching and hosting regular tests has really helped me gain a strong grasp over my subjects. I had joined ASC since Grade 8 and I have seen an improvement in me as it taught me how to understand concepts and solve questions. It has also embedded in me a sense of hard work and the whole atmosphere of motivation and competition helped me a lot. I would specially like to thank Sanjay Sir and Nutan Ma'am and academic staff in helping me in my academics. Their way of teaching is something which any student could wish for. Their assignments, tests and explanation of theory is on point, they are always open to any doubts or issues and always are ready to solve them. It is unlike other competitive coaching institutions where the concepts are taught too fast. This institute has been my very good foundation and I hope that other students feel the same way about it too.

PHYSICS for IIT

Two proactive students responded to my advertisement in 2018. Both of them cracked **IIT-Mains 2020** (Percentile **99.4 & 82** with **99.4 & 93** in Physics). They worked hard - day in and day out with "**FOCUS**" on **Advance**. I attribute 99% of this success to students for their "**GOAL-DIRECTED**" efforts.
