Introduction.

This paper introduces a crypto token called "Sapient Wellness Token (SPW)" that aims to improve peoples' mental health and wellness by reducing stress and financial worries.

Mental health is one of the essential parts of human life, and mental stress can cause significant problems like depression. An estimated 264 million people are affected by depression globally.

One of the main reasons causing mental health is financial worries and issues. Sapient Wellness Token's goal is to reduce that by providing a crowd-funded way of giving people a way to enrich their financial future via crypto. It will ensure SPW holders' financial freedom.

How does it work.

Sapient Wellness Token will create a stable passive income source for its holders. The tokenomics is designed to provide holders and investors maximum benefits.

8% of every transaction tax will be redistributed to holders. Holders only need to hold SPW in their wallet of choice, and they will be rewarded \$BUSD. \$BUSD aka Binance pegged USD is a regulated stable-coin pegged 1-1 to the US dollar.

Rewards are triggered once the amount is high enough to cover the gas fee and will be automatically sent every 60 minutes to all SPW holders.

****It might take a bit longer to trigger the reward depending on a holder's holdings and trading volume.****

Tokenomics Breakdown.

Sapient Wellness project's tokenomics is designed to give back to the community as much as possible. There will be a 14% transaction tax on all transactions. 8% will be redistributed to all holders, 3% will be transferred to the liquidity pool on Pancakeswap, 2% will be used to buyback and burn, and the remaining 1% will go to the marketing wallet to grow the project even more enormous.

Total Supply: 100,000,000 (100 million)

Transaction Tax.

Mooning Features.

Liquidity Pool:

The liquidity pool has been locked and certified to ensure traders can always Buy & Sell without liquidity issues and provide more stable value. 3% of every transaction tax is deposited to the LP.

Anti-Whale Mechanism:

Our Anti-Whale Mechanism ensures that no single sell order can be executed that amounts to more than 0.125% of the current circulating supply. It ensures SPW never faces large selloffs or price manipulations.
