## INTRODUCTION

This method involves selling website traffic (which you get for free) on microjob sites like fiverr, seoclerks, etc.

This is a very basic way to make money online. Extremely Good for beginners. And doesn't involve much work.

Investments are not required. But you will earn more and also faster if you do decide to invest.

## **GETTING MILLIONS OF WEBSITE VISITORS [FOR FREE]**

First thing you have to do is ==>click here to register your account.

When you're logged in: Click on "Earn Traffic" and Download and Run the Viewer on your computer to earn minutes.

The more minutes you earn the more traffic you can send to your clients links/websites.

### **OPTIONAL:**

==>Click here to learn how to create free amazon vps and run the viewer on here for 24/7(Create 2 vps).

You can also try ==>this site for setting up a windows vps.

### **RECOMMENDED:**

It's recommended to upgrade your account to at least "High". This way you'll be able to send organic & social traffic and earn more minutes.

Once you have enough costumers: You can also buy more minutes and extra websites slots. This will make your account able to send traffic to more costumers per day. Which means more \$\$\$ per day :)

## **MARKETPLACES**

Fiverr

Seoclerks

Konker

Discountworkers

You can google around for more sites like these. But I recommend fiverr because it's been the best for me.

## **START SELLING**

Go on your marketplace and search for "Traffic" and see what top sellers are selling. (Like ==>this) The best way to start is by selling Unlimited traffic per month. This is the easiest way to get started. Just make sure you have premium and enough traffic and slots on your account.

Just find top selling gigs and copy everything, images, text, prices, etc.

You can make your own high quality images using ==>this site if you want.

## HOW TO SEND TRAFFIC

When somebody buys traffic all you have to do is add buyers link into [==>goo.gl](https://www.google.com) and add the link to the "My websites" section on the traffic exchange.

If you have premium set the source to organic or social sources.

Set your "Daily Hits Limit" according to your Fiverr gig. Don't send all the traffic in one day. I recommend sending 1/10 of the total amount of what you sold per day. If you're selling an amount of traffic like 5000, set this limit to 250-500 per day.

Set your "Total Limit" to 110% of the amount of traffic that you sold. If you sold 5000 visitors, set this limit to 5500 (You'll see why on the next page).

---

---

**Once you start delivering the traffic:**

1.Go to [goo.gl](http://goo.gl), go to the link you created for the traffic exchange and click on details. Copy the link in your address bar. Make sure it says `"/all_time"` behind the link.

2.Go on the marketplace and deliver the order. And say something like this:

"Hi, Thank you for your order!

Your order started and visitors are coming to your site now.

You can track the traffic here: [http://goo.gl/  
#analytics/goo.gl/XXXXX/all\\_time](http://goo.gl/#analytics/goo.gl/XXXXX/all_time)

Please leave me a positive feedback and I will add FREE bonus visits!

If you have any concern regarding my service Please contact me before give me a negative feedback.

I will do the best I can to make you 100% satisfied with your purchase.

Have a nice day!"

90% of buyers will give you 5star reviews just for the bonus. The more reviews = the more sales :)

---

## **EXTRA TIPS**

### **Boosting Sales:**

When you have a gig listed. Buy your own gig using another account and leave a 5 star review 1-5 times. Add video to your gig. If you can't make video, wait until you make enough money and buy a service from fiverr.

### **Other Traffic Types You Can Sell:**

SEO Traffic - Keyword based search traffic. When you have premium you can add keywords when adding the links to the traffic exchange.

Social Groups/Pages/Boards Traffic - Send traffic to fb groups, Pinterest boards, tweets, pages, etc. Combine this cheap social engagement from ==>sites likes this one for even happier costumers.
