

FORCE POWER SCROLL
Version 1!

Scroll of force users and their sensitivity to force power. Not everyone is in this scroll so don't come to me and say "You forgot me" because we can't include everyone because there's literally hundreds of you...

This means potential with 0 training this is how powerful and sensitive they are with no training at all but if they train more they can be better than more gifted people

These are the records of the top 20 force users in order of their force power.

DISCLAIMER: This top 20 is not accurate. It is just out of the people we CHOSE. Some are missing!

Cosmic force potential is my own version of in-game force potential with our own secret calculation based on real numbers from the game from Damen himself.

I used only the original names

I will do a bigger list with more people in it and if I put your old account on here sorry I will do a new list later. - Glarthir
