Imperium of Diamond's, a plea for support to governments, and for the safety of International cooperation providing the function of anti-monopolistic system of IDs and Trial Committee, and because of the risk of instability governments Imperium of Diamonds in the case of full application of the Act Global Cooperation Mafia.

International cooperation is ensured for the opportunity to create a system of inquisitorial police teams which together will control the function of the constitutional system and implement prevention monopolies in politics, corruption and fraud or other crimes.

Police cooperation is therefore legitimate security interests IDs government as an act of police cooperation at the same time proves that the government Imperium of Diamonds owns no criminal problems secret plans or criminal act. The government is trustworthy.

Today, in the interests of the Act GMSC & D, the same time is not active IDs cooperation with any format of the Mafia and criminal entity, just only apart from European governments, because of the application of legal communications.

In the case of liaising with the body Mafia after legalization, then it is an advantage if it can be applied more trust from our cooperation, and the ability to ensure the common relations without the risks and threats of fraud or criminal bankruptcy, monopoly and corruption, cooperation means a certainty in halting steps abuse political rights.

An act of collaboration is not created for the purpose of organizing the crime or criminal acts. Act UNGA on combating corruption Measures for the prevention of international organized crime, the principles of a law in my country of possibilities of cooperation for security and investigative oversight function on the authorities and political accountability, as well as confirming the full legality of government and authority.

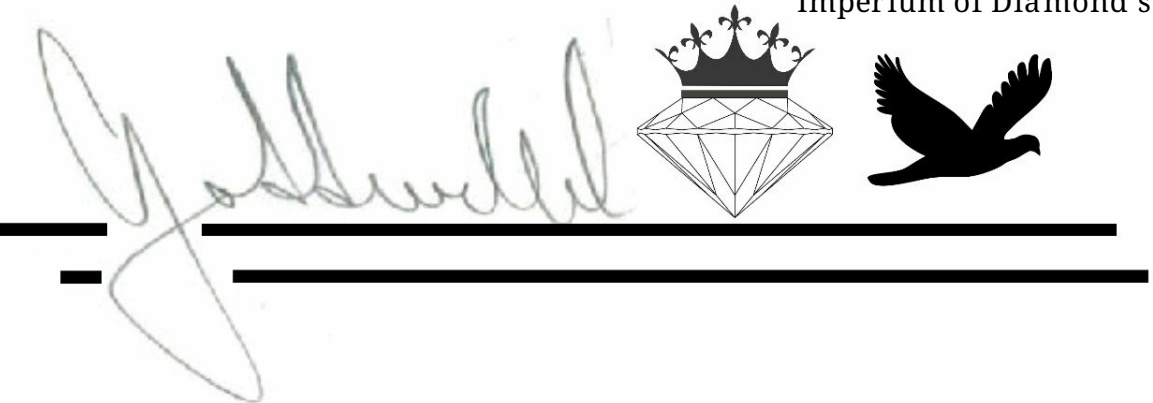

If today is necessary to ensure financial cooperation for the stabilization of security, therefore the possibility to act to ensure a common understanding of the exile ID's Finance Office with headquarters in the territory of your country. I then immediately able to provide support for your safety circuits.

Security cooperation, the requirement arises from the current state of instability in the government because of European terrorist blockades mean minimal ability to use the company for the development of the function of authorities.

Security cooperation can develop into an International view at the level of joint investigations, joint anti-crime strategies and activities, information sharing and judicial relations, building new multilateral relations for grow a Global Justice.
