FIELD VOLUNTEERS

FIELD REPRESENTATIVES

There are eight field representative couples who care for Britain, Ireland and Malta. These couples work full-time to determine the needs for Kingdom Halls and meeting places across the branch territory.

CONSTRUCTION GROUPS

There are nine groups in Britain and Ireland and one serving in Pakistan. On each group there are typically four to six full-time volunteers who move from project to project.

ASSEMBLY HALL / SCHOOLS FACILITY SERVANTS

There are 14 full-time volunteers serving at Assembly Halls and Bible School Facilities in Britain and Ireland. These ones care for the operation of these well used buildings.

MAINTENANCE TRAINERS

Almost 80 couples volunteer as maintenance trainers. They train congregations to effectively care for their places of worship. This prevents the need for early renovation projects, ensuring dedicated funds are available for areas of greatest need.

REMOTE WORKERS

In addition to those mentioned above, there are nearly 80 remote volunteers who work from their homes, one or more days a week, to support the LDC with engineering, design, real estate, technical support and procurement.

If you have any trade skills, experience in design, engineering, real estate, or would just like to get involved, complete a *Local Design/Construction Volunteer Application* (DC-50) form.

Builder Assistant (**ba.jw.org**) is the primary tool used to identify and invite volunteers to work on LDC projects.

To help the construction groups find you, make sure your Builder Assistant profile is up to date and that you have provided a personal assessment for all your skills.

WE LOOK FORWARD TO WORKING ALONG WITH YOU AS WE SERVE JEHOVAH TOGETHER DURING THIS EXCITING TIME OF ACTIVITY!
