2018 Family Engagement Survey

The survey is open February 12-March 9

Parents/guardians of ASD students are encouraged to take this survey to share their feelings and experiences about their child's school. The results of this survey help us gauge how we're doing as a school and as a district. Results also help measure progress toward our Destination 2020 parent satisfaction and student safety goals. Our goals and areas of focus are based on your responses, so it's important to us that you complete this survey.

2018 PEAKS State Assessment

The Performance Evaluation for Alaska's Schools (PEAKS) is Alaska's summative assessment administered to students in Grades 3-9 (English language arts and mathematics) and grades 4, 8 and 10 (science) each spring. The purpose of a large-scale, summative assessment is to provide parents and schools an overall picture of a student's progress in meeting the Alaska standards at his/her grade level. The assessment is taken on the computer and is not timed, but each content area takes approximately 100-180 minutes.

Parents can locate resources for the PEAKS assessment, including directions for PEAKS Practice tests, called Online Tools Training and PEAKS Tutorials (under Frequently Asked Questions), on the ASD website at www.asdk12.org/PEAKS.

Parents can also help by ensuring their children are well rested, eat a nutritious breakfast, and are at school on time for the days of testing. Please avoid scheduling appointments on your child's testing days.

The PEAKS testing window below provides a framework for which weeks are used for testing at each grade level.

2018 State PEAKS Testing Window: **March 26-April 27**
