

Are You A Romantic At Heart?

Are you looking forward to getting your virtual hands dirty? You can design the world you've always dreamed of and also survive endless attacks from zombies creepers giants, mutants and other enemy mobs. The smash-hit Minecraft which has grown into a worldwide phenomenon is now available on both Apple and Android mobile devices as the Pocket Edition. Never get bored when you take a world of adventure with you.

The application version of Minecraft brings much of the same gameplay and many of the top features of the original game to mobile devices. Anyone who has played the game on a computer will be able to quickly adapt to the Pocket Edition version. If you somehow didn't play the original game, get ready to get your schedule cleared because this is one addictive game.

Creative's Dream

Are you ever frustrated by the limitations of Sandbox games? Then, welcome to Minecraft Pocket Edition and say goodbye to limitations. Besides building, fighting and growing and harvesting, mining and trading for the resources you need to build whatever you want, you can tweak just about every aspect of the world and how you interact with it. After you have explored the vanilla game world and you're ready to personalize.

- Are you a builder, but not an opponent? Eliminate your enemies and gain access to unlimited resources for designing whatever you want by turning on the creative mode. You can create to your heart's delight, or switch back to survival mode if you want to test how your creations perform against the crowd. The God Mode allows you to become all-powerful. You can alter the world around you using slash commands. Change the weather, transform it from the seasons, summon resources, or alter the landscape to fit your style of play. Is God Mode cheating? It's up the player to decide. But one thing is certain: it's a lot of fun! Mods are available for almost anything. Want a pet? There are many mods to help you achieve that. Are you a romantic in your heart? Download the mod that will let you test your flirting skills by playing NPC characters. Maybe you just want to build an inflatable boat and go on a voyage. Go for it. There are mods, skins and other objects that are both free and paid on the marketplace. There are thousands of mods to download. If you don't find what you're seeking, don't worry. You can always make your own. You can show off your imagination by joining a supportive and mature modding community that provides tools and helps make modding easier for everyone, even non-techies.

You can play however you like without any restrictions!

Your World Your World

Do you want to be King of the World? Then, with the Minecraft Realms add-on, you can control your own server.

Create the ultimate private cooperative society for up to eleven members where everyone works together to build an online utopia or opt to transform your Realm into an incredibly destructive PvP Battle Royale. You have the option to select. You can pick between Realms or Realms Plus at present. Realms costs \$3.99 per month and allows you to join with two other players to log in to your server. Realms Plus costs \$7.99 per month, and lets up to 11 players join the fun, and offers free marketplace items and other swag every month.
