Primobolan Depot is the only steroid that works well on a low calorie diet. Depending on your goals, it can be used effectively in combination with any steroid, and it does not effect natural testosterone production. Primobolan Depot is also commonly used to bridge between two stronger steroid cycles, to help preserve gains that were made.

Bayer Primobolan tabs are typically found in 25 mg or 50 mg tablets. It depends on geographical location and seller as well as demand. Those who purchase their Primobolan tabs can always split the tablet in half, which is recommended for beginners to determine how the body will react to it.

É ideal para quem busca produtos menos agressivos e mais suaves, pois é livre de silicones, parabenos e corantes. □ O Kit de Coco é rica em lipídeos e consegue penetrar a camada mais profunda do fio promovendo uma nutrição regeneradora.
