## GARDEN WHICH "BEST BUY" RAISED BED

New

**Our raised beds with their quality design, workmanship and value for money have been awarded the Gardening Which Best Buy for raised beds.**

Standard Wooden Raised Beds are the most popular of our raised bed range, highly acclaimed and market leading these superb raised beds combine quality design and workmanship with value for money and performance. These quality Raised Bed Kits provide the ideal growing conditions for fruit, vegetables and herbs, perfect to 'Grow Your Own' in style and with our range of sizes and heights, you are bound to find the ideal wooden raised bed for your garden.

Please note that as timber is a natural product and is susceptible to shrinkage/swelling, all sizes are therefore nominal +/- 5mm. Sizes apply to external dimensions.

- 3 year structural guarantee
- Complete raised bed kits include pre-drilled planks, capping, internal wooden corner fixing posts, galvanised screws and full instructions
- Capping (2.5cm/1" H x 7cm/2.8"W) gives top of beds an elegant finish.
- Standard Raised Beds made from quality 3.5cm/1.4" thick Scandinavian softwood timber planks from sustain-

ably managed forests.

- The timber is kiln dried and selected to a structural standard to ensure high quality
- Each plank depth measures 15cm in height and is planed all round for an attractive finish.
- High pressure treated with a non-toxic preservative after consultation with the country's leading organic growing body - Garden Organic - before selecting treatment
- Preservative helps ensure best possible resistance to fungal decay and wood-boring insects
- This product is supplied as a kit for self assembly

**Standard Raised Bed 4ft x 4ft x 12" H**

New

The Superior Wooden Raised Bed Kits with super thick planks, decorative corner posts and robust aluminium fixing brackets are very much the flagship of our extensive wooden raised bed range, perfect for creating an extremely attractive raised bed area for the discerning vegetable gardener.

The superior wooden raised beds use quality 20cm/8" high by 3.5cm/1.4" thick scandinavian planks, sourced from sustainably managed forests which are planed all round for a quality finish. The timber is kiln dried and selected to a structural standard to ensure high quality. The 10cm/4" square corner posts give extra strength and can link additional raised bed kits or parts together. All the wood is high pressure treated with a safe wood preserve - after consultation with Garden Organic - to ensure the best possible resistance to fungal decay and wood boring insects.

These stunning wooden raised beds, ideal for growing your own vegetables are supplied as complete kits including thick planks, corner posts, capping, long lasting aluminium corner brackets, stainless steel screws and full instructions. Capping to provide a wide comfy seat for working and gives the top of the beds a stylish finish.

The Superior Raised Beds really do offer the complete answer to raised bed gardening

- Designed and manufactured in the UK
- 4 year structural guarantee
- Superior Wooden Raised Bed Kits made of quality 3.5cm/1.4" thick by 20cm/8" deep timber pre-drilled planks

- Manufactured from Scandinavian softwood from sustainably managed forests
- The timber is kiln dried and selected to a structural standard to ensure high quality
- Raised Bed Kits supplied with planks, corner posts, aluminium brackets, capping, stainless steel screws and full instructions.
- 10cm/4" square corner posts give extra strength
- Planks, posts and capping all have surfaces planed for maximum aesthetic appeal
- Wooden components high pressure treated with a non-toxic preservative (after consultation with Garden Organic)
- Treatment of wood helps to ensure best possible resistance to fungal decay and wood-boring insects
- Aluminium joining brackets used to connect corner posts to planks
- Simple assembly with full instructions provided

***AWARD-WINNING VEGTRUG™ IS A CONVENIENT, ALL-IN-ONE GROWING SYSTEM***

**Winner of the 2012 Green Thumb Award for Outstanding New Product!**

**Grow a productive garden in a small space**

**Built to last of solid wood, with dovetail joints and a food-safe finish**

Grow plants at an easy working height in this unique patio garden; no bending or kneeling to plant, tend and harvest. The elevated bed means no weeds and fewer pests, too. The V-shape makes efficient use of space and planting mix — grow deep-rooted plants like tomatoes in the center, shallow-rooted crops like salad greens along the edges. Includes a fitted fabric liner to keep soil contained while letting excess water drain. Plastic feet protect wood from wet surfaces. Quality construction and easy assembly.

***VEG TRUG SMALL PLUS COLD FRAME***

Extend the growing season with this new wonderful cold frame .Allows you to start flowering plants early in the year and continue growing salads and herbs right through the winter.

3.5mm polycarbonate for maximum insulation, Safety shatter proof material, heat retention over winter. Cold frame can also be used directly on the ground

**Veg Trug size: L100 x H760 x W800  
Cold Frame size: L105 x H760 x H145**

**€230 Code 140/S557

## ***INCREDIBLOOM®***

**400% More Flowers  
New in 2015**

**You'll grow up to 4 times more flowers  
Enjoy healthy and vigorous green foliage  
Easy-to-use, one-off single application  
Cost-effective and long-lasting**

Incredibloom® is a complete plant fertiliser that guarantees that your plants will be fed the correct nutrients as and when they need them. This ground breaking plant feed gives a fast acting, immediate result combined with a slow release, long-term effect and no waste or burning.

Developed by Thompson & Morgan their trials really have demonstrated the benefits of using the right fertiliser and with such dramatic results, it's a false economy not to add Incredibloom® to your order. With an excellent balance of NPK and trace elements, one easy application is all that's required to keep your plants well fed for the rest of the growing season.

N:P:K - 24:5:5 + 3Mgo + 5S+TE with trace elements  
(0.02% boron, 0.06% iron & 0.01% Zinc)

750g **€17** Code 140/S470

1.5kg **€28** Save **€6** Code 140/S470A

## ***EASY PATH***

The EasyPath is an instant fold-out pathway for placing between rows of vegetables, herbs, flowers or strawberries so that you can work between the crops without having to use planks of wood. The EasyPath makes your plot easier to weed, water and harvest and because it is made of a tough outer weed barrier with a strong internal structure it suppresses weeds and can also be used to protect wet lawns from wellies and wheelbarrow traffic. It has a carry/hanging handle and loops along the edge to peg it in place, and when it is not in use it folds up neatly into a 30 x 30cm square. Size: W300 x D30cm

**€18** Code 140/S577

## ***FOLD-A-FRAME***

An elegant and amazingly versatile support frame that can be used to support tomatoes, peas, beans or other climbers. Fold-a-Frame will stop tomatoes collapsing under their own weight and make accessing fruit and vegetables easier. The four hinged steel panels (each 33cm wide x 110cm high) can be used in a square or in conjunction with other units clipped together to support large groups of plants. An unobtrusive and much smarter alternative to canes, Fold-a-Frame will support, separate and add elegance to your plants. Size L 1.1m x H 1.32m.

**€22** Code 140/S578

## ***WOODEN OBELISKS***

Add elegant height and style to your garden. A clematis, rose, sweet pea or even climbing vegetables woven round an obelisk will bring a sensory explosion of scent and colour to your garden - and Wooden Obelisks will ensure there are no calamitous collapses in the garden, allotment, vegetable patch or kitchen garden.

**1.9 M High €60** Code 140/S276A

## MONET ARCH

Use them to create fragrant “entrances” to one part of the garden from another, as an elegant architectural feature or simply as a floral porch over a doorway.

Size 1.2 x 2.16 €50 Code 140/S564

Size 1.5 X 2.26 €55 Code 140/S564A

## ROUND GARDEN ARCH

No garden should be without a floral garden arch; adding immediate height and interest to your garden. Use them to create fragrant “entrances” to one part of the garden from another, as an elegant architectural feature or simply as a floral porch over a doorway.

Size 1.2 x 2.09 €50 Code 140/S562

Size 1.5 x 2.24m €55 Code 140/S562A

## GOTHIC GARDEN ARCH

Our Gothic Garden Arch gives the perfect decorative plant support for colourful scented climbers. Creates a stunning frame for garden entrances or an elegant feature spanning a pathway or framing a door. The Gothic Garden Arch mirrors the style of the Victorian garden. This attractive formal arch with its finial detail is ideal for slower growing plants. Garden Arch Easy self- assembly.

Size 1.2 x 2.2.4 m €70 Code 140/S563

Size 1.5 x 2.44 m €80 Code 140/S563A

## WALK-IN FRUIT CAGES

Walk-in Fruit Cages are perfect for protecting bigger growing plots and allotments, all our walk-in Fruit Cages have easy access thanks to their full height door. Our walk-in Fruit Cages are constructed using our 8ft tubes as verticals to give a full head height of around 6' once constructed. The Fruit Cage walls are covered with strong 18mm square black netting whilst roofs have lighter weight green knitted netting. All netting, clips, connectors and ground pegs are included. All our walk-in Fruit Cages include a door kit meaning you have easy access to your Fruit and Vegetables.

Size 6ft H x 6ft W x 12 ft L

€199 Code 140/S567

## VEG CAGE

Our Vegetable Cages use 4ft uprights and 4ft, horizontals to provide protection of your veg. The supplied anti-butterfly netting keeps the caterpillars away as well as the birds, whilst the height of the cage means you can easily grow the healthy, bumper crops of brassicas you've always wanted. Vegetable Cages have a finished height of around 3ft once constructed and are supplied with all connectors, clips, pegs and netting.

Size 3ft H x 6ft W x 6ft L €75

Code 130/S565

## SMALL FRUIT CAGE

Size 3ft H x 6ft W x 6ft L

€110 Code 140/S566

Add a charming touch to your garden with these adorable metal ornaments with solar lights. These delightful garden features by day will become attractive solar lights at night. Solar lights can create dramatic shapes and shadows whilst energy efficient LED lights provide soft, subtle lighting for a relaxing atmosphere. Ideal for table tops, gardens, patios or decks, automatically illuminates at dusk with 8 hours operating time.

### COMPACT COMPOSTUMBLER

#### Makes Compost in 14 days!

The Compact ComposTumbler was developed in the 1990's specifically for home composting by suburban gardeners and homeowners who garden on smaller properties. This composter has all the same quality and speed of the bigger model, with half the capacity. Holds 300 Litres.

€375 Code 140/S5561A

#### THE BACK DOOR COMPOSTUMBLER

The Back Door ComposTumbler was developed for backyard composting. If you have a city property or a very small yard, this little composter was designed just for you.

€270 Code 140/S088

#### ORIGINAL COMPOSTUMBLER

#### Makes Compost in 10-14 Days!

Here's the garden composting product that started a revolutionary new way to make compost nearly 40 years ago! It's easy to load. This batch composter has the largest capacity of any we offer – it holds up to 635 Litres! It's easy to turn. It saves time and labour while providing you with a steady supply of your own homemade compost in just two weeks (or less!)

€495 Code 140/S561

## WOLF GARDEN MULTI CHANGE TOOLS

With this range the tool heads and handles are sold separately allowing you to choose the best handle and head for the job. The multi change snap-lock connections mean that the head fixes on quickly, safely and soundly on to the handle. We have listed some of our best, you can find more in our online shop. The Wolf Garden Tools system means you can use the same tool head for close work in beds or to reach the back of borders with just a simple change of the handle.

Choose a Handle first, then choose one or more attachments.

- Aluminium Handle 32cm **€7** Code 130/S311B
- Aluminium Handle 120cm **€13** Code 130/S310
- Aluminium Handle 150cm **€14** Code 130/S311

## MOSS REMOVAL RAKE

The comfortable multi-star Aerator Rake is perfect for thoroughly cleaning moss and thatch from the lawn. The sharp, hardened barbed blades do not require resharpening and are therefore always accurate and reliable. The working width of this quality product is 30 cm.

**€37** Code 140/S316

## WEEDING BRUSH

The new multi-star weeding brush is a convenient solution to facilitate the removal of every weed. It is comfortable to work while standing upright. The steel bristles of the weeding brush facilitate the removal of every weed. Protects your back.

**€17** Code 140/S317

## LAWN EDGE TRIMMER

The lawn edge trimmer cuts perfect edges of any shape or size whilst keeping your back straight. Easy to manoeuvre. Sharp serrated blades for clean cutting performance.

**€65** Code 140/S315

## PUSH PULL WEEDER

Fast action hoe. Simply work the blade back and forward below soil level. Wavy dual-edged blade cuts efficiently, self-sharpens in use. Safeguards let you work close to plants without damaging them. 10cm wide.

**€24** Code 140/S318

## SOIL MILLER

Soil Miller is truly multi-talented, as a universal gardening tool. It crumbles soil to a fine tilt for sowing seeds or planting. Mixes peat, manure and garden fertilisers into the soil. While the pendulum blade is cutting weeds, thanks to the specially-shaped star wheels the soil miller is crumbling, loosening and aerating between the rows of plants, making the ground suitable for sowing and planting. Working width 15 cm.

**€50** Code 140/S312

## CULTIWEEDER

Loosening and weeding at the turn of a hand - that's what the iE-M multi-star CultiWeeder is there for. This dual tool with 3 lance tines for thorough loosening and aeration, and a sharp weeding blade for problem-free cutting of individual weeds has a working width of 10 cm.

**€27** Code 140/S319

## SEED SOWER

Save time and effort by sowing seeds uniformly in rows without bending. Multi-change seed sower is a unique seed drill that has three exchangeable, large capacity magazines for various seed sizes. The two ratios permit precise and economical sowing, with a distance of 3 or 10 cm between seeds. Automatically spaces seeds in perfectly straight rows. Seed Sower 6 adjustable seed size settings (up to pea size)

**€24** Code 140/S313

## DOUBLE HOE

Broad, sharp angled blade for weeding or drawing out seed drills plus Sharp prongs on rear break up heavy soil.

**€24** Code 140/S352

### WEEDING KNIFE

A superior tool that removes the toughest weeds. Integrated foot rest for extra leverage removes the toughest weeds with little effort.

€23 Code 130/S372

### SMALL TOOLS FOR SMALL AREAS

Long reach handle makes gardening easy for people with limited mobility.

A wide choice of rakes, crumblers, hoes and cultivators for use in small beds and confined areas. These small hand tools can be used combined with a short handle for close work or even on a long handle for work from a standing position with no bending required. Great for easy weeding, aerating, planting and transplanting even in the smallest flowerbeds.

**Important: Remember to choose a handle from page 16 for use with these tools.**

### SMALL SOIL CRUMBLER

High quality robust design with four strong tines for planting and transplanting.

€15 Code 140/S346

This Space Sava Mini Water Butt is the ideal solution for collecting rainwater and is perfect when space is at a premium. Its straight sides ensure that it will fit neatly into the smallest corner in your garden. It is finished in dark green to blend in with your garden and has a five-year guarantee. The Mini Butt is compact in size yet has the capacity to store 100 litres of rainwater. Comes complete with a lid, tap, base and diverter and a 5 year guarantee. The rain Trap downpipe connector fits standard 68mm round and 65mm square downpipes.

€50 each Code 140/S433

## IRRIGATIA SOLAR AUTOMATIC WATERING SYSTEM

Using only rainwater and the power of the sun this Eco friendly product waters your plants automatically.

Weather responsive SMART irrigation controller. Irrigatia kits are ideal for gardens or allotments, and can be used for pots, raised beds, hanging baskets, vegetables and greenhouses. They use solar power to pump feed and water from your water barrel, so need no wires, mains connections or hose pipes, nor will you need to lug water around in a watering can. They are easy to install and set up and once in they will water automatically with minimal supervision.

The more sun, the more it waters – waters every 3 hrs. Saves plants from drought and waters when on holiday. Automatic watering for up to 24 Irrigation Units (e.g. 10 large hanging baskets or 24 x 20 litre pot). Drip waters up to 5m above the water source.

Uses up to 90% less water than a hose, Easy, Eco, Efficient, Water source to controller – maximum 20m, Water source to last dripper, – maximum 60m

EXCLUSIVELY FROM MR MIDDLETON

### 3-IN-1 ELECTRIC PATIO HEATER

Safe to use outside and indoors – free standing or wall mounted

Our versatile 2kw 3-in-1 Heater uses the latest Infrared technology (FIR) to efficiently heat you and not the surrounding area to ensure you get heat immediately, when and where you need it.

This technology makes the heater safe to use outside or indoors, unlike most other patio heaters which are purely for outdoor use, so can be used to warm your conservatory, office, workshop or any other room in the house that may need additional heat, making this an all-year-round heater!

The large Quartz heating unit provides three heat settings (650W, 1300W and 2000W) accessed by a pull cord operation, with heat setting display, and with adjustable height from 185 to 205cm and adjustable head angle to direct heat right where you need it. It features a sturdy round metal base for extra stability. The heating unit can be easily removed from the stand and fixed onto a wall with the bracket supplied for additional versatility. The 3-in-1 Infrared Heater is economical to run . IPX4 Approved. Pole: H185 – 205cm (adjustable) x 3.8cm dia. Heating unit: W50 x H22cm. Round base: 45cm dia. Fitted with heavy duty outdoor rubberised cable – Length 2.5m.

€99 Code 140/S628

### EASY RIDDLE

Easy, efficient, lightweight garden sieve that takes the strain out of soil sifting. The flexible, lightweight mesh base and sides allow for a gentle rocking rather than vigorous shaking action. With the Easy Riddle there's no shake, no back ache and no spilling. Efficient and easy to use, simply fold the Easy Riddle away for storage. This is the ideal product for creating fine seed and potting compost.

€15 Code 140/S568

### SULPHUR VEG

Sulphur Veg – the natural defence against vegetable diseases.

Sulphur is a key element in plant growth. It is critical in the production of vitamins, amino acids and enzymes.

With a sulphur deficient plant that plant will exhibit yellowing of its upper and lower leaves. Once there is a deficiency plants may become susceptible to diseases such as powdery mildew, certain rusts and leaf blights. This will also result in a lack of maturity (if at all) and just as importantly poor nutritive value.

Sulphur also gives vegetables such as broccoli and onions their flavour.

Regular and continuous use of Sulphur Veg every 3 weeks will keep vegetables strong and healthy allowing for continuous growth and a resilience against vegetable diseases. 1 level scoop of Sulphur Veg (25g) diluted in 500ml of tepid water covers 25m2.

Pack Size 250grms

€20 Code 140/484A

## GREENACRES SULPHUR ROSE

### Roses Love it

A BRILLIANT TONIC FOR HEALTHY BLOOMS & FOLIAGE.

Sulphur is the natural enemy of Blackspot and powdery mildew diseases. In times when sulphur dioxide was present in the atmosphere as a result of coal burning fires blackspot was unknown in big cities. Give your roses a regular treat with Greenacres ' Sulphur Rose '. Roses love it and so do rose growers .It's a brilliant tonic for roses - ensuring lots of healthy foliage and masses of blooms . It prevents yellowing of leaves and also helps neutralise the effects of hard (limey ) water which roses do not like.

Applying Sulphur rose will ensure your roses remain healthy and produce a fabulous display of flowers all summer long. Simply apply to the stems, foliage and surrounding soil.

It is best applied regularly at two to three monthly intervals during the dormant period, followed by monthly applications ( at 1/3 the normal rate) during the leafing period . This will ensure you keep the disease at bay. Can be applied throughout the year.

Promotes healthy vigorous growth and a profusion of perfect blooms.

A 250grm pack will treat up to 20 rose bushes for one year's complete programme.

Simply sprinkle the sulphur directly into water, stir and apply.

250grm pack €20 Code 140/S484

# NEMASLUG®

## MR MIDDLETON'S TOP SLUG CONTROL FOR ORGANIC GARDENERS

Slugs are the number 1 garden pest, feeding on the foliage, flowers, stems and roots of plants. Slugs come in all shapes, colour and sizes, including the small, black, sneaky ones which live underground and the fat frilly monsters up to 4 inches/10cms long. The good news is that Nemaslug® will polish them all off naturally. Nemaslug® should be applied OUTDOORS between March and October. Each unit contains 12 million nematodes. Suitable for organic growers. Leaves no residue - once applied, all you see is your plants.

- Nemaslug® is totally harmless to children, pets and wildlife. Nemaslug® is so green that birds & hedgehogs can happily eat slugs after application.
- Nemaslug® is easy to use - simply mix the harmless powder with water and apply to the soil using a watering can or with a hose-end feeder.
- Nemaslug® works for 6 weeks - even in wet weather which is just when your plants need protection.

Nemaslug Standard pack - treats 40sqm

€18 (incl p&p) Code 140/N001

Nemaslug Large pack - treats 100 sqm

€33 (incl p&p) Code 140/N002

## ANT CONTROL - NEMASYS® NO ANTS

Nemasys® No Ants ant nematodes - Ants nests in lawns and borders can be a real problem. Tackle them by watering nematodes (steinernema feltiae) directly into the nests. Nemasys® No Ants controls ants of all colours (including red ones) in lawns and borders. It comes as a harmless powder and is totally safe for children, pets and wildlife and the lawn can be used directly after use. Nemasys® No Ants nematodes - Simply mix the powder with water and pour directly into the nests using a watering can.

Nemasys® No Ants treats 16 nests / 12 sqm

€15 (incl p&p) Code 140/N006

Nemasys® No Ants Large Pack treats approx 50 large ants nests or 36 sqm.

€25 (incl p&p) Code 140/N007

## NEMASLUG PLANNED PROGRAMMES

Nemaslug® Planned Programmes - For the best results apply Nemaslug® regularly every 6 weeks. Nemaslug® is a perishable product, so our unique planned programmes are designed to make your life easier and keep your garden slug free throughout the growing season. We automatically top you up with fresh packs of Nemaslug® every 6 weeks and SAVE money too!

Pre-order a Nemaslug® planned programme - Nemaslug® should be applied outdoors between March and October. Pre-order a planned programme and we will automatically despatch the 1st pack of the programme w/c 08/03 - the ideal time to start treating outdoors. You may however start your programme anytime up to August.

### TO ORDER A MR MIDDLETON PLANNED PROGRAMME:

Nematode application methods - Nematodes are supplied as powders which are mixed with water and applied directly to the soil with a watering can, hose-end feeder or sprayer. You should use a coarse rose on the watering can a Haws No 7 is recommended, or we find the hose-end feeder very successful.

## NEMASYS VINE WEEVIL KILLER MR MIDDLETON'S NO 1 VINE WEEVIL KILLER

Nemasy's® Vine Weevil Killer - Keep vine weevils at bay naturally by applying Nemasy's® Vine Weevil Killer at least TWICE or use it MORE OFTEN in sheltered gardens or underglass where vine weevils grubs tend to be active much earlier and much later in the season. It is important to treat when grubs are present i.e. in the spring (March – April) to control any grubs which have over-wintered and in the autumn (Sept) to control any grubs which have hatched from eggs laid during the summer. Left untreated, vine weevil grubs will feed on your plant roots causing permanent damage and even death to the plants. Nemasy's® Vine Weevil Killer works at temperatures above 5°C/40°F and should be applied as soon as grubs are present and the soil temperatures are suitable.

Microscopic nematodes control vine weevil and are safe to you, your children, pets and wildlife. Great value for money. Totally safe to use on food crops such as strawberries. Suitable for organic growers, safe and harmless to children, pets and wildlife.

How to apply? – Simply mix the harmless powder with

water and apply to the soil around the plant roots with a watering can.

**Nemasy's Standard Pack – 12sqm or 160 pots**

**€15 (incl p&p)** Code 140/N003

**Nemasy's Large Pack – treats 100sqm**

**€43 (incl p&p)** Code 140/N004

Nemasy's® Extended Programmes – Spring and Autumn are getting warmer! Vine Weevil adults and grubs are much more active and persistent in warmer situations, so EXTRA applications are recommended for plants in greenhouses and conservatories, containers in sheltered gardens, or where you have a persistent vine weevil problem. Our Nemasy's® Extended Programme of 4 deliveries spread throughout the growing season will protect your plants and save money too!

4 Deliveries sent – 1st delivery Mid March, 2nd Mid April, 3rd Mid August, 4th Mid September.

**Nemasy's Standard Programme 4 Deliveries €56**

**(incl p&p) Save €4** Code 140/N003A

**Nemasy's Large Programme 4 Deliveries €162**

**(incl p&p) Save €10** Code 140/N004A

## Love 'Em And Leave 'Em 100% BIODEGRADABLE LEAF SACK

Not everyone has a compost bin and if you do, it might not be big enough to accommodate the huge amount of leaves which one small tree can produce. Our jute sack can hold thousands of fallen leaves. Once filled, do what the name says; simply Love 'Em and Leave 'Em in a corner of the garden. The leaves and the sack are biodegradable and you will have [already delivered!], that corner stone of green gardening – wonderful compost.

**€4 each** Code 140/S148

**€10 per 3** Code 140/S148A

**€20 per 8** Code 140/S148B

## NEMASYS NATURAL FRUIT & VEG PROTECTION

The Nemasy's Natural Fruit and Veg Protection takes the guesswork out of garden pest control and makes life in the garden so much simpler; there's no more trying to remember what spray or predator you need to control specific pests or when to apply them with this lethal cocktail of garden pest-seeking nematodes around!

Capable of controlling Carrot Root Fly, Cabbage Root Fly, Leatherjackets, Cutworm, Onion Fly, Ants, Sciarids, Caterpillars, Gooseberry Saw Fly, Thrips and Codling Moth, this really is the must have pest protection in the fruit and vegetable garden. A single application of Natural Fruit and Veg Protection once the soil temperature hits 12°C will give a fortnight's control - and it will also look after codling moth larvae when applied to trees or soil. Each pack covers 60 square metres (or 16 trees in the case of codling moth larvae) and a double pack give one month control, which saves both re-ordering and postage costs.

**1 pack 14 day control €10 (incl P&P)** Code 140/N005C

**2 packs 1 month Control €17 (incl P&p)** Code Code 140/N005

## MR MIDDLETON GREEN MANURE

**Enrich your soil**

An easy way to add nutrients and bulky, organic matter (humus) to your soil, helping to maintain or improve fertility and soil structure. Green manures are grown to dig into the soil to improve its fertility. They do this by preventing soil erosion, forming humus, holding plant nutrients and helping soil organisms and earthworms.

## VIANO BEST BLOOM ROSEFEED FROM THE MAKERS OF MO BACTER

### Best bloom rose feed for bush and shrub roses

Organic based fertilisers which stimulate microbial activity within the soil and improves the soil structure. Roses are hungry plants and need well balanced food to produce the very best results. Best Bloom rose food provides all the nutrition that roses need. One feed last up to 100 days.

Feed your roses 3 times a year to produce the best roses in town. First in march to stimulate the flower bud formation, second in May- June to prolong the flowering season and finally July-Sept to stimulate a second flowering period and to enhance the flowering of next season.

10kg **€20** Code 140/S479

## VIANO LAWN RECOVERY

■ Restores Stressed Lawns from Root to Leaf. From the makers of Mo Bacter Revitalises your lawn after hard play, winter damage, scarifying and drought.

■ Transforms stressed grass from roots to the tip of the leaf.

■ Feeds your lawn for at least 100 days.

Organic based , powered by Humifirst an unique combination of humic and fulvic acids that actively stimulates root growth. This helps the grass take in nutrients and fertilizer from the soil. Which produces a proliferation of healthy green leaves and stronger plants that outcompete moss and weeds.

20kg treats 200sq m **€36**  
Code 140/S471

## SECRET TO A PERFECT LAWN

### Mo Bacter Organic Lawn Fertilizer and Moss destroyer

MO Bacter slow release organic fertiliser from Belgium is a granular organic fertiliser which destroys moss, feeds grass and improves the soil all in one. MO Bacter Organic Fertiliser is a unique moss destroyer as it will not send your moss black and saves you from back breaking work

One of the major benefits is it destroys moss without leaving any of the unsightly black debris. The dead moss is actually digested by the bacteria (bacillus sp) which is found naturally in the soil but when added to fertiliser it

consumes dead material like thatch and moss making it unnecessary for raking or scarification after treatment... Leaving your lawn looking healthier.

Being organic it is totally safe and unlike some weed & moss killers is not harmful to you , your children or animals. It will not burn plants in your borders if you should spread it beyond your lawn, it does not stain stonework, patios or paths – a massive bonus!

10 kg **€22** coverage 100sqm Code 140/S376

20 Kg **€36** coverage 200sqm **Save €8**

## GARDEN TOOL SHED

**Add a touch of sea side chic to your garden design with this great looking Brighton garden shed.**

This colourful shed not only looks great, it is also a very practical storage solution. It is made from high quality hardwood, sourced from managed sources, so you know it will be a long lasting addition to your garden, that is also environmentally sound. The inside is cleverly designed with 3 half shelves that you can use to store all manner of gardening items, while the higher open space can be used for storing your longer tools, hoe, rake etc. This means that you can easily access all your items without the normal rummaging around that usually takes place when you decide to tackle a job in the garden. The Wooden door comes with 3 hinges, to ensure smooth opening and closing, and with 2 magnetic catches and two external wooden catches top and bottom, you can be sure that your equipment is safely tucked away.

The shed is protected by brightly coloured polyurethane paint, which not only looks fantastic, it will keep looking great for many seasons to come. The roof is covered in a heavy grade roofing felt, so your bulbs, gloves and equipment are all sure to be dry next time you head out into the garden.

Compact and colourful, this shed really will bring a touch of sunshine to your garden, whilst also being supremely practical.

## CHEMPAK - Professionals and Show Winners 1st Choice

Chempak Soluble Plant Foods are formulated to meet those exacting standards of the professional grower and top horticultural exhibitor. They are fully soluble which means they start to work instantly, and are ideal for the professional and everyday gardener alike wanting to get the best results from their garden. All Chempak Soluble Plant Foods contain seven essential trace elements, far more than ordinary soluble fertilisers. These trace elements are absolutely necessary for healthy plant growth. Exclusively distributed by Mr Middleton Garden Shop.

### ESSENTIALS RANGE

Specific feeds to maximise yield and flavour of a full range of vegetables including the award winning Tomato Food.

#### TOMATO FOOD

A high potash (11-9-30) formulation. Ideal for all varieties of Tomatoes grown in the greenhouse, outdoors in pots, grow bags or in the soil. Can also be used for other crops such as Peppers, Melons, Cucumbers, Strawberries and soft fruit.

## THE COMPLETE WINDOW FEEDER

The only window feeder designed to hold bird seed and water and fat-balls for maximum bird interest. Great visibility 3-sided access 2 special perches. Clear overhanging roof.

**€20 each** Code 130/S127

## LADYBIRD TOWER

Ladybirds are very attractive little creatures with a voracious appetite for greenfly and black fly, a Ladybird will eat 10,000 aphids in it's lifetime. Once you establish them in your garden they will breed and provide you with natural pest control for years to come. You can encourage them to take up long-term residence using our Ladybird Tower. A natural habitat for ladybirds and other beneficial insects. A ground pole is provided so the tower is easy to position in lawns, etc. Ladybird food attractant is provided to help attract them to nest.

**€20 each** Code 140/S122

## EASY FIT DOOR CANOPY

New elegant door canopy, suitable for your front door as well as your back door, it will protect you and your callers from rain and the elements. And, it's also quick and easy to install! Durable weather resistant and uv stabilized PA high-impact resistant brackets. Aluminum front and rear profiles. UV stabilized polycarbonate cover. Complete with wall fixings. Measures D76cm x W121cm x and comes with black brackets and a clear polycarbonate roof.

**€95** Code 130/S328

## LADYBIRDS

### ONE LADYBIRD CAN EAT 10,000 APHIDS

Ladybirds are very attractive little creatures with a voracious appetite for greenfly and other aphids. Adult Ladybirds are the best known beneficial insect and a delightful sight in the garden, where they happily feast on greenfly and other tasty pests. By releasing ladybirds as adults in your garden you can boost their numbers, which will lead to a permanent decrease in the number of pests in your garden - each ladybird will eat about 10,000 aphids in their lifetime and will soon produce ladybird larvae which in turn also eat aphids. Once you establish them in your garden they will breed and provide you with natural pest control for years to come. Ladybirds are available from May - August. Pre-order now for delivery first week May.

**25 Ladybirds €30** Code 140/N009

## NEW BIRD REPELLERS FOR GARDEN / FARM / ALLOTMENT

Our Bird repellents are used in many airports and by public authorities to protect historic public buildings from birds as well as in hospitals, schools and farms, and restaurants and warehouses.

Designed for Irish Weather conditions.  
Use the sun for Free power – cheaper than batteries. Use with any of our repellents. Suitable for wall mount and ground mount.

€25 Code 140/S392

### RABBIT CAGE TRAP

Humane Rabbit Trap is a traditional device for the humane trapping of rabbits or similar sized pests. The door is closed when the intruder takes the bait, safely trapping it inside. Expect many years of rabbit trapping service from this galvanized rust resistant wire mesh trap – complete with a carry handle and full instructions, it's supplied flat-packed for ease of storage.

€35 each Code 140/S032

### SQUIRREL CAGE TRAP

Grey squirrels can be an interminable garden pest; they dig up bulbs, pinch fruit, steal birds eggs, gnaw the bark off trees and even munch on foliage when nut stores run low, so trapping and removing them unharmed with our Humane Squirrel Trap makes good garden sense. The rust-resistant galvanized wire mesh trap opens encouraging the squirrel in to feed on the bait which is placed near a sensitive base plate and when triggered the door spring into the locked position, trapping the creature inside. At 44cm in length, the squirrel, rat or other similar sized pest is unlikely to be harmed and the trap is easily transported with the carrying handle. Ideal for use in lofts or outbuildings, the humane catch trap comes complete with fully illustrated instructions. 44 x 19 x 19cm.

€30 each Code 140/S031

### WILKINSON SWORD PRUNER SET

## EASY TO GROW KIT

### Reduce and save water

An ingenious gravity fed system that waters and feeds plants for weeks without the need for pumps, electricity, mains water supply or maintenance! Simply top up the 47 litre tank with water and liquid feed every few weeks. The cleverly designed 'Aqua Valve' draws water from the reservoir into the tray section each time the plants have drunk up all that's there, providing excellent results. The standard Kit is supplied with two pots, but can be extended to feed up to six pots from one easy to grow 2 - pot extension kit.

- To get you started we will include a pack of Thompson & Morgan Gardener's Delight Tomato seed.

- A popular, heavy cropping variety for greenhouse or outdoors, producing long trusses of small, sweetly flavoured 'cherry' fruits. Sow in spring and pick from mid-summer to autumn.

**Easy to Grow Kit €45 each** Code 140/S012

**Easy to Grow 2-pot extension kit**

**€25 each** Code 140/S012A

## GROW POTS

For growbag gardeners these ingenious pots are a must. They cut neatly into growbags, and allow you to provide easy, accurate watering and liquid feeding (no messy compost erosion or water wastage). The pots' outer trough holds 4 pints of water, which seeps steadily into the bag to provide a constant supply of water, while the inner pot holds extra compost and liquid feed, promoting extra root growth, healthier plants and heavier crops. Three pots fit neatly into a standard sized bag, and can be re-used year after year.

**Set of 3 €15** Code 140/S010

**Buy 2 sets for €26 Save €4** Code 140/S010A

## VERSAILLES GARDEN FURNITURE ANTIQUE BRONZE

Our Versailles garden furniture is extremely popular due to its high quality construction and stylish matt finish. The range is manufactured in sturdy boxed steel tubing with attractive scroll design features. All items are supplied factory assembled and fold flat for easy storage, unless otherwise stated. Cushions available separately.

It's great for repairing pipes, gutters, drains, roofs, windows, the clear mastic spray is ideal for conservatories, UPVC windows, aluminium and wooden windows, greenhouses. Spray n Seal. 250ml can.

€20 Clear Code 140/S175

€20 Black Code 140/S175A

## RUST BUST KILLS RUST DEAD

Kills rust dead and protects against future corrosion with this unique Formula. The rust magically disappears before your eyes. Leaves a permanent foundation for painting. Simply spray on and leave to dry.

When applied directly to rusted iron or steel, this 2 in 1 Rust Remover will convert iron oxide into black ferric phosphate. After the rust has been treated and converted to ferric phosphate it can be scrubbed off to expose the fresh clean metal surface underneath. The black ferric phosphate can also be left to provide moderate corrosion resistance. Rust remover also contains an agent to prevent the acid attacking uncorroded metal making it easier and safer to use.
