# SOSHARU NETWORKS

WHITEPAPER

**#Revolution of social media marketing**

Presented by SNS TEAM

# INTRODUCTION

## Sosharu networks

We are startup company that focusing on global social media marketing business that will provide service for personal / company

Sns token will be the main currency in our dapps for paying service ( buy real follower , hire marketer , book ama schedule with many community etc ) and will be used as investment tools to grow your wealth ( holder of sns token will be rewarded with 0.5% incentives with every sell transaction from trading volume )

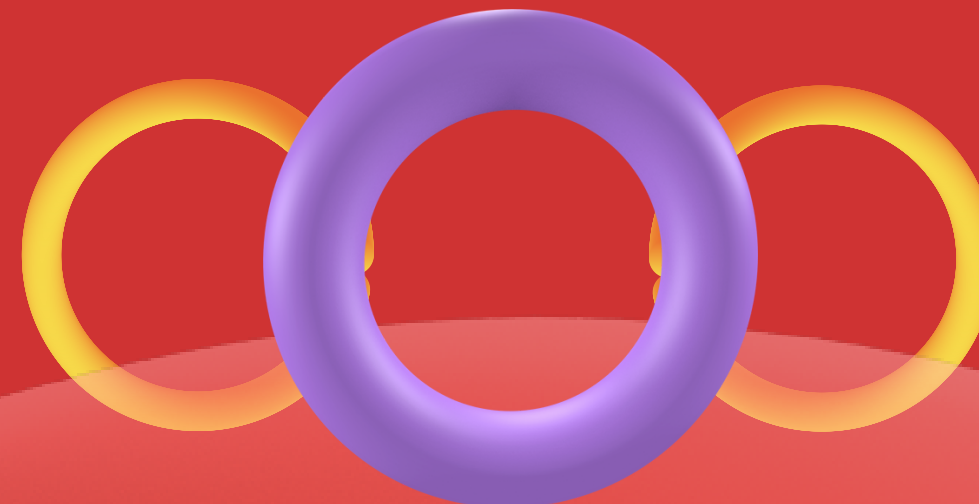

# SOCIAL MEDIA MARKET SIZE

As we all know that social media is now not served just for connecting people across the globe , but it is a growing business industry which new younger generation and companies use as tools for marketing purposes

based on the data from google : 4.70 billion people around the world now use social media, 227 million new users have come online within the last 12 months. The average daily time spent using social media is 2h 29m.

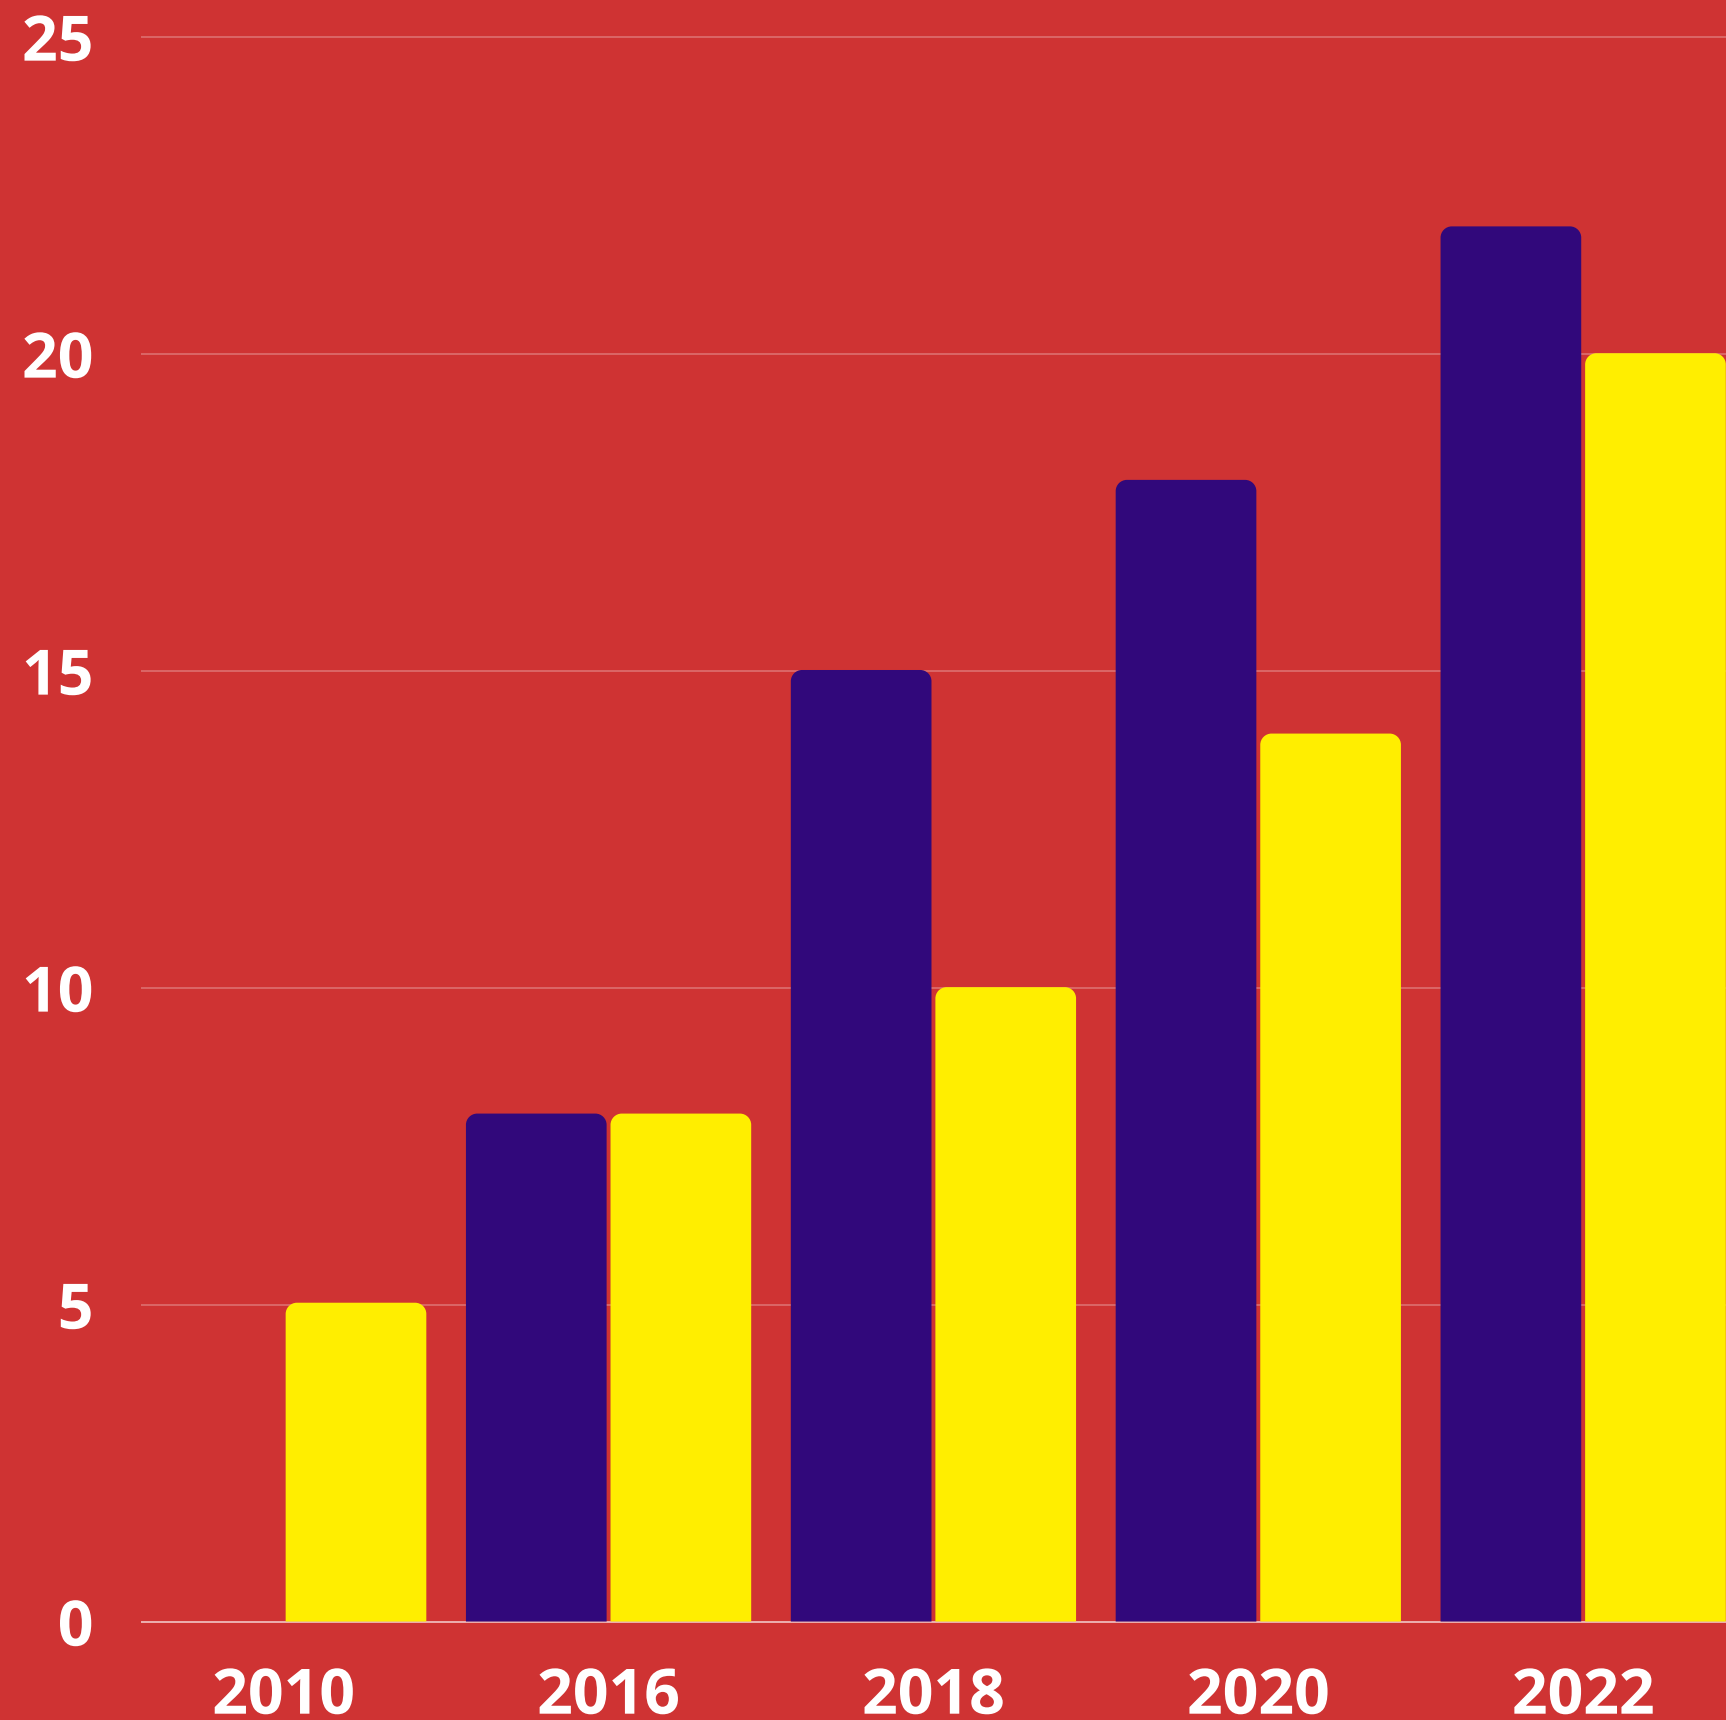

we all now moving to the new world where doing a marketing job becomes lot easier by promoting in social media because of the engagement of product or ads can reach so many people in matter seconds.

# GROWING INDRUSTRIES

statistic of usage increase per years of people using social media from time to time continue to increase , opens up many possibilities for new startup to reach more audience worldwide and building connection

[www.sosharunetworks.com](http://www.sosharunetworks.com)

# TARGET MARKET

We aiming to provide our service for personal and startup to help them gain more engagement for their social media

as we all know social media influencer are now becoming trending jobs because of lot potential it holds to earn money by working as endorser or content creator

many startup also using social media for brand promotion or ads because it can reach larger audience globally

## **Member / seller**

member will be user who registered on our platform and will be rewarded per task , the rewards will be generated from customer who pays for the service,group or community can also sell their service in our marketplace

## **Customer**

Customer will be the one who pays services in our platform and all the generated revenues will be distributed to the member / community and some of them will be used for maintaning the project

# PROBLEMS

1

Buying follower in many website out there doesnt guranteed that you got real follower and sometimes people might getting scammed in the process

2

Buying the fake follower / bot doesnt increase the credibility of your social media and you ended up trading your money for zero values services

3

There are a lot of scammer in crypto that pretending to be channel / group owner that offering their marketing strategies for new startups (ama , mod , shill service,etc)

4

Crypto startup that looking for marketing services sometimes get too many incoming message from the marketing group and sometimes it can be hard to choose the right marketing services for their needs

# SOLUTIONS

## Solution 1

Social marketplace which we provide 100% real follower from our community which will be verified through certain process

## Solution 2

Service marketplace which verified seller can listed their service for social media marketplace ( anti scammer proof )

## Solution 3

We provide tracking system for the follower who unfollow your social media account based on the package you bought ( 3 month anti unfollow etc )

## Solution 4

SNS team only act as bridge and support and we will take small amount of fee so our project can last , providing holders security for the long term investment because our project generated revenues to pay holders incentives.

# OFFLINE NFT MARKETPLACE

## Coffee shop

Building a headquarters as a coffee shop in all over the globe can actually bring benefits to the sns and nft holder.

Benefits of having coffee shop in various countries can be so much :

- offline use case for sns token
- arbitrage business for various kinds of coffee (export-import)
- nft showcase and auction gallery
- free marketing ( milenial and gen z usually take photos and post in their social media - free marketing)
- And so much more

# HOW DOES IT WORKS?

Sns token as discount coupon and trade tool

We want to have an actual use cases for sns token and will do partnership with crypto groups in other countries to raise awareness for the sns token.

the group owner can join and be the founding member of the sns token and we will create a coffee shop on group owner place as a form of partnership. there will be certain condition to be met to be able to work together as a founder, term and condition will be negotiate during the meeting (online / offline)

we want to build a business and building network all over the world , and this can create mass adoption for sns token.

## GENERATING REVENUES ONLINE AND OFFLINE

Building an offline shop will increase the trust of the investors and can provide sns token more utility in our ecosystem , it is also provide a great marketing service for customer in which they can promote their NFT through our coffee shop , they can list it and pay for the service and we will display your NFT through all of our coffee shop. Our community can enjoy the coffee in our shop at discounted prices up to 75% this is our appreciaton for our community.

Creating a good inflow and outflow are essential to keep the project maintain its price and to be able to survive during bear market. we dont want to rely our project in the hands of whale like meme token out there , and brings real utility to sns token.
