

SUMMARY: it appears that the release of the funds and 800 numbers will not be done until next week, 7-15 Oct. No reason was given. That said, contacts in Reno say that the money is moving NOW.

Bruce says that small dinar denominations are scheduled to be released on tomorrow or Sunday. **That is likely to coincide with release of their new rate (RV).** Iraqi stock exchange will trade on Monday. **US Tier 1 banks have been hydrated with 800 trillion dollars prior to the exchange.**

Q Anon releases bombshell information about Chinese firms installing tiny microprocessors in the hardware of several of the worlds largest computer companies, with systems in the DOD and other secure commercial intellectual property affected. See below.

*The Newsletter Update Skype room has now been limited to posts only from me, meaning these updates. So, if you have hesitated to go there because of difficulty in finding the updates, that problem should have been resolved. Posts are still in IDC in the evening. **The following link will allow you to join if you are already a Skype member, or get a temporary 24 hour guest pass if you are not.*** <https://join.skype.com/tJyMbfvwhJG6>

Please feel free to share these newsletters. They are a product of Global Genius Trust www.ggtrust.com . Thanks for those who send in materials for publication. You can find these newsletters in Intel Dinar Chronicles each evening, and at our Skype room at <https://join.skype.com/tJyMbfvwhJG6>

AD: For you folks that do not want to continue waiting for the RV/GCR and want to start earning money now, via investing your time and/or investing money now. I invite you to join our forum on www.wire.com titled: "Project Funding NOW". We have opportunities where you can potentially earn 33-200% yearly on your investment. Do not have funds to invest? You can help us find investors. My wire joel.ggtrust or email me joel@ggtrust.com or Skype: JASEGUROLA

[The Big Call with Bruce - Intel Only for Thursday October 4th](#)

10/4/2018

TRANSCRIBED BY PINKROSES

Bruce: Welcome Everybody to the Big Call tonight. Just when it was safe to close the door on Iraq, something else comes out. Today we got information from Sulaymaniyah, one of our sources there, that **Iraq is going to have their lower denominations not only at the ATMs. These are the lower ones the 10s, 20s, like we have here.** They will have that in Dinar the lower denoms and they will be everywhere. They will be in the stores, the banks, the ATMs.

They supposed to bring them out either Saturday or Sunday. Sunday is the first day of their business week. If they bring them out Saturday, great. If they bring them out Sunday, great. **It is a very good sign that they are saying to the world hey we have revalued. This is our new rate, and we have the new lower denoms to go to.**

Bruce: What is interesting about that is if they do come out Saturday or Sunday which we think they will by then with the lower denoms, they will be also trading their dinar on their market Sunday night, on the Asian market because the Asian market opens up 9:00, 9:30 pm EST. Over there is it 9:00, 9:30 Asian time, Hong Kong in the morning, Monday morning. That would occur where those would be traded. We also believe the ISX will be trading, and the dinar will be tradable on the ISX but also it will be tradable on the NASDAQ in the US on Monday morning. We should have visibility more with Iraq and the dinar as the result of what they will be doing over the weekend whether it is Saturday or Sunday.

Bruce: Then Sunday night for China when they open up the markets over there and then Monday morning when our

markets open up at 9:00, 9:30am on the East Coast then the NASDAQ opens. When we talked about the ISX, Iraqi Stock Exchange, being connected directly to the NASDAQ. So that just a little bit more where Iraq is right now. **They already have done some celebrating over there. I think that is what we can look forward the weekend over there.**

Bruce: **When it comes to us here, we are looking to move forward. There were some things today and yesterday pointing to very much the start of a very good weekend for us.** It could be, but also I am hearing some things that look **very strong for early next week.** I can't definitely say it is this or that.

It is just certain things we were learning yesterday and today are pointing towards a positive thing for the weekend. When you do hear things about Iraq with their lower denoms, with the ISX, and with the trading on the NASDAQ come Monday, it kind of makes you look beyond the weekend. It is looking good for the next few days. Again Guys if I try to call it I just might be wrong. I am not going to call it. I can't even make up my mind how I feel about it. I mean really I am getting things pointing to one or another, this day or that day. A lot of stuff like that.

Bruce: Here is what happened. This is what I try to do is give you what has occurred. That tends to be better than generalities. I think you guys like specifics too. Yesterday at 2:18 EST time everybody in the US should have received their text message on their phone. Everybody but Bruce. I didn't get one. I don't know why. I wasn't on the phone at the time. I had my phone. I was waiting for it. Just about everybody I know got one. Not everybody get it. However 4 minutes later at 2:22 pm EST I saw the announcement on Fox TV. I had the DVR and I froze it and watched it and watched it again. That was interesting because I got the gist of the Emergency Alert System, EAS, and how it was used. **What was cool about that announcement even though it was just a test that was a precursor to what I believe we will be getting as information on that system because I believe that kicked off the start of NESARA.** I believe that announcement was an initial start to the process of NESARA. That had to happen. That test had to go forward.

Bruce: My gut says we are going to get more announcements on that system direct from the President. This was called a Presidential Alert. I think President Trump is going to use that system to get us information direct to the people of the United States in the similar fashion he uses Twitter to get information out. **He kind of does an end run around the media.** Doesn't mean the media isn't going to cover information like Fox did yesterday where I happened to be tuned in and I saw it. I believe there is going to be some things about NESARA. It has been 8 years since I have known about that. I don't know everything about it. I know a little about it. It could be very interesting how that will be utilized. I wanted you to know that.

Bruce: There are some other cool things that are happening with our security. We got it all clear yesterday a little bit after that announcement. **We got it all clear from Homeland that everything was 100% secure. That was after a number of cleanups on aisles 3, 4 and 5 that I talked about on Tuesday.** That is in a good position, good shape right now. The timing of that memo that went out yesterday afternoon was very good in the sense that it allowed for the US Treasury to have a call yesterday that was very positive. What it was able to do **was the US Treasury was able to put a large amount of liquidity into not only Tier 1 Banks but also Tier 2 Banks.** It started last night at 11pm with Tier 2 Banks, and then at 2am this morning with Tier 1 Banks. **These were very large numbers of liquidity to each of those banking institutions.**

Bruce: Tier 1 Banks-HSBC, Wells Fargo Bank, Chase Bank, Bank of America, and Citibank. Tier 2 Banks- Regions Bank, SunTrust Bank, etc. All the Tier 2 banks got started with a good chunk at 11pm last night, and then same thing happened at 2am this morning for the Tier 1 Banks. That liquidity is what they are calling it Standby Capital. That Standby Capital is going to be utilized by us when we go in for our redemptions. It is amazing because **that supposed to continue that daily, the infusion of capital into the banking system for the next 91 days.** It is an amazing amount, and we need it. They need it.

Bruce: **Even though it is digital, it still backed by our gold back USTNs.** It is really a good thing that we have. I understand that even the amount we got this morning and last night are doubled now and not only they are doubled,

but they are happening starting at 2:30am tomorrow, they are going to be doubled and going about every 13 hours. That is quadruple of what we got today. It is twice as fast every 13 hours instead of every 24 hours.

Instead of 400 trillion it is 800 trillion for the Tier 1 banks. It is a huge amount. That liquidity goes on and on and on, and we need it. It is cool because also the Redemption Centers are getting daily infusions of cash for us. That is continuing. They are getting that to get ready for this. It is a very positive thing for us moving forward.

Bruce: We have this amount of reserve capital or liquidity at the banks that is increasing daily as they are getting ready for us. We know of transactions that are happening real time today where a certain amount of liquidity has been assessed by people who are doing exchanges and redemptions. Not a whole lot. Just a little bit what we call walk around money, but we know full access to one particular account I can think of will be granted on Tuesday.

I don't know if that is an indicator for us, but it could be an indicator. **Next Tuesday full access to 50% of the mother lode will be available.** I am encouraged by that because it shows movement with money that is actually coming out. It shows when full liquidity will be available, blah, blah, and blah.

Bruce: It is all good and we are moving forward. I can tell you we are definitely moving forward. Even though sometimes this is behind the scenes and not really be aware of it unless you are listening to the Big Call. I can tell you I get this kind of information every day. I just feel good where we are. I really do. I heard things out west are moving forward. I don't think anyone has gotten liquidity yet as far as that large amount yet. Maybe a little bit of walking around money.

I believe they are about to be hydrated. As I have said for months those groups even the core groups may not see liquidity until we see our toll free numbers released. It may be timed so that occurs so no one has unfair advantage of major liquidity until we all can go. **The banks are excited because they are seeing the Treasury come forward with this reserved capital, Standby Capital. Standby Capital is what they are calling it.**

Bruce: With that I am going to say that is about as close a picture as I can paint for you in terms of where we are and what is actually happening behind the scenes. Keep an eye on Iraq over the weekend. What about Kavanough? Does the vote need to happen before we go? I am have been told no it doesn't even though the vote suppose to take place maybe tomorrow night and might drag into Saturday. I don't think it is not tied to this as far as we can see. I don't believe in consequences. We will see how that shakes out.

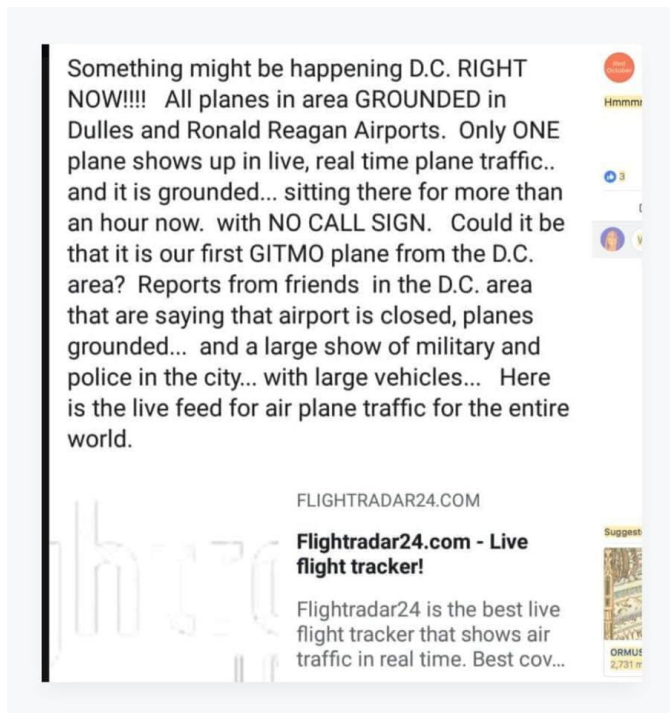

Bruce: I am encouraged. I am excited. I feel good where we are. I hope you got a feeling of that with the Intel segment. That is where we all are. Let's keep that stance. Everybody thank you so much. I appreciate you. I appreciate you Sue, Pastor Steven, and Bob. What a great team to be associated with. Thank you Big Call listeners everywhere. Thank you, Pinkroses, for transcribing the call. Really appreciate that and it is wonderful you have done that for so long now. I appreciate that so much. Thank you team and Thank you Big Call listeners. Good night Everybody. I hoped you enjoyed the call. God Bless you.

THANK YOU BIG CALL AND BRUCE, HUGSSS

FORMER CIA DROPS BOMBSHELL "PROOF" INDICTMENTS ARE COMING!

Kevin Shipp, former CIA and anti-terrorism & counterintelligence expert author of 'From the Company of Shadows' joins Sheila on an incredible show! August 20, 2018. <https://www.youtube.com/watch?v=S057FfEu34o> 53 min

This was on the Tilton call last night. I did not find that the Flightradar24.com data was the same as he reports it, but perhaps something was awry, especially considering the posts which follows that one.

Something might be happening D.C. RIGHT NOW!!!! All planes in area GROUNDED in Dulles and Ronald Reagan Airports. Only ONE plane shows up in live, real time plane traffic.. and it is grounded... sitting there for more than an hour now. with NO CALL SIGN. Could it be that it is our first GITMO plane from the D.C. area? Reports from friends in the D.C. area that are saying that airport is closed, planes grounded... and a large show of military and police in the city... with large vehicles... Here is the live feed for air plane traffic for the entire world.

FLIGHTRADAR24.COM

Flightradar24.com - Live flight tracker!

Flightradar24 is the best live flight tracker that shows air traffic in real time. Best cov...

DELTA: The Central Bank launches a small currency and delete Quranic verse

The Central Bank of Iraq announced on Thursday that it intends to launch large quantities of small currency categories to the market with changes, including the absence of the category of a thousand dinars from Al-Ikhlās.

A statement issued by the Central Bank said that "small amounts of small denominations were launched with a slight change in the form of these categories of 1000 dinars, 500 dinars and 250 dinars."

"The deal will continue to trade with the new and previous issues in daily trading," he said.
The new edition of the category of the thousand dinars of surah al-Ikhlās that existed in all other editions.

<http://www.alliraqnews.com/modules/news/article.php?storyid=77990>

Purifiers: IMO... THE BANKS OF IRAQ WILL HAVE TO COLLECT THEM DELTA...

.
THE NEW REAL VALUE WILL CAUSE 3 ZERO NOTES TO EITHER BE DEPOSITED, OR EXCHANGED AT THE BANK FOR SMALLER NOTES...

.
AS, IMO... YOU AND FRANK HAVE TAUGHT US, IYO.
HOW WOULD WE SPEND A \$10,000.00 USD NOTE IN THE U.S.?

.
(IF YOU HAVE ONE... IT IS STILL LEGAL TENDER)
WE WOULD "LIKELY" TAKE IT TO OUR BANK TO TURN IT IN FOR A LEDGER BALANCE IN OUR ACCOUNT.

.
THEN THAT \$10,000.00 USD NOTE WOULD BE PHASED OUT OF CIRCULATION, EVEN THOUGH IT WAS "STILL GOOD", IT WILL NOT BE USED ANYMORE, (AND NOT SAFE TO HOLD THAT MUCH VALUE, IN ONE NOTE... IN YOUR POCKET!) LOL

Explosive Report Details Chinese Infiltration Of Apple, Amazon And The CIA

Q 2335 – CHINESE SPY CHIPS IN US HARDWARE

THIS IS A VERY IMPORTANT PIECE. MOST OF THE INFORMATION CAN BE LEARNED BY READING THIS BLOOMBERG ARTICLE, WHICH Q POSTS IN THIS PIECE. READ IT, AND THEN READ THE REST OF THE MATERIAL;

<https://www.bloomberg.com/news/features/2018-10-04/the-big-hack-how-china-used-a-tiny-chip-to-infiltrate-america-s-top-companies>

The post starts with a previous post referring to US warships running into other ships. It implies that such navigation problems are likely due the infection of the ship's computers from outside sources.

► Q !xowAT4Z3VQ 04/05/18 (Thu)

Think Navy Ship crashes.
Bigger than you know.
We ARE active.
Q

[Following the image, there are several other images of pallets and containers of Chinese computer hardware, cell phones, etc. We have seen these before. They appear to have been photographed by an agent of US intelligence. We did not know what they were, when we saw them before. We are getting the idea, now.]

Here are the links for the photos, if you want to see them:

<https://qntmpkts.keybase.pub/data/media/257dde32fbc415d513760787bc66f99906943669c6e12bb3319fb87c46edb2af.jpg>

<https://qntmpkts.keybase.pub/data/media/74fa367d9e27e6c3c838b851c9e6bf21c92edc05c74370165930144ef5feb2dd2.jpg>

[continuing, we have the link for the above article. It is then followed by quotes from the article:]

<https://www.bloomberg.com/news/features/2018-10-04/the-big-hack-how-china-used-a-tiny-chip-to-infiltrate-america-s-top-companies>

"Elemental's servers could be found in Department of Defense data centers, the CIA's drone operations, and the onboard networks of Navy warships."

"Multiple people familiar with the matter say investigators found that the chips had been inserted at factories run by manufacturing subcontractors in China."

"One official says investigators found that it eventually affected almost 30 companies, including a major bank, government contractors, and the world's most valuable company, Apple Inc."

"One country in particular has an advantage executing this kind of attack: China, which by some estimates makes 75 percent of the world's mobile phones and 90 percent of its PCs."

"But that's just what U.S. investigators found: The chips had been inserted during the manufacturing process, two officials say, by operatives from a unit of the People's Liberation Army. In Supermicro, China's spies appear to have found a perfect conduit for what U.S. officials now describe as the most significant supply chain attack known to have been carried out against American companies."

The More You Know...

Facebook is listening to you 24/7/365.
 Literally.
[F9 algorithm]
 Are they recording/safe-housing?
 Metadata collection?
 Building 8.
 DARPA.
[CHINA-CHINA-CHINA]
 Q

Translation: Facebook is literally listening to you ALL THE TIME. And recording at least all the metadata, if not including the actual conversations and text.

They have this program, in conjunction with DARPA, in Building 8 on their campus. DARPA created Facebook, NOT Zuckerman. He has only been running it for them. And CHINA has infiltrated totally.

[187]
 Sold intel?
 HRC open source server?
[Missing emails]
[CrowdStrike]
 Granted access.
 Betrayed.
 Only the tip.
 This will be made public **[soon]**.
 Q

translation; when the 18 CIA assets in China were revealed, they were killed.

It appears that Hillary sold the information about the CIA agents to China through access to her private server. This is why she had the server—to make US secrets available to foreign governments. Remember, China had a program set up in her server to automatically forward a copy of ALL of her emails, official and otherwise, to the Chinese government.

This is part of the reason for the CrowdStrike investigation into HRC emails. It will soon be made public. And this is only the tip of what they will find.

Q 2336 – STAND DOWN

Israeli intelligence - stand down.

[TERM_3720x380-293476669283001]
