ABOUT THE AUTHOR

Scotty Saw is an old school conspiracy realist. He was aware of the evilness in the world and the greed, corruption and control that we have all been subjected to for only God knows how many years since being a teenager (over 20 years now). He has always been a loving, healing kind of guy and started his work life in the earlier days in mental health as a support worker trying to help people.

He has travelled the world and lived in and spent years in England, Wales, Spain and Thailand. He has always been one with the people embracing our differences and also our commonalities. He has had some amazing spiritual experiences including finding his purpose which is helping to create Eden (Heaven on Earth) and he is showing the world how we need to change the broken old system by creating a new one AKA The Humanity Project One Day Movement to do this.

The Humanity Project brings together all of the people united and will give us all freedom from modern day slavery, freedom from the need to work to live and bring back a sense of togetherness, love and unity in the community worldwide.

DEDICATION

This book is dedicated to all good people around the world no matter your color, religion or race there is only one race, the human race!

Regardless of our differences we are more or less all the same, we were created equally and we should embrace our differences and the different experiences we go through on our journeys whilst we are here.

It is my belief we are all spiritual beings having physical experiences and we all have a purpose and reasons why we came here and things we are meant to do. I think we all get distracted in worldly life and daily activities and we forget who we truly are and why we are here and often end up disconnected

On top of this the way the world is and the systems of control that have been placed upon us all by the establishments running the world have even further disconnected us from the creator and our true selves and each other.

This needs to change! So I dedicate this book to all the everyday people out there because once you all become aware of what we can do and that the power is in all of our hands to change everything for the better then the faster we are able to do so and create a much better world for our children and for theirs! The only alternative is to continue as we are and things are going very badly for millions of us worldwide and very quickly getting considerably worse!

If we do nothing we are heading for disaster and all of this can be easily avoided! So please get involved share this knowledge with everyone you know and care about and let's come together and put the unity back in the community and create a new normal we can all be proud of together.

ACKNOWLEDGMENTS

Before we get into how we change the world and the One Day Movement I would like to say a massive thank you to some of the people that have contributed and helped us all out in one way or another.

First of all, I would like to say thank you from the bottom of my heart to all of you who joined The Humanity Project Facebook group/chat and have become involved! I appreciate you all so much and you guys helped make all this possible, it's like I got a new additional family and I love you all! Massive thank you going out to Dustin, Gaynor, Barry, Jenny, Sara, Pat and all of you! There are far too many to mention!

Also a very big thank you to Charlie Ward and all of the great people at The Gesara Club, especially Adrian, Jay & April from Spiritually Raw, Nick Veniamin, Emma Goodwin, Mark Attwood and Pimpy! Thank you for all the great information you have given to us and for uniting us all in the search of truth, justice and righteousness in the world and for your efforts in helping humanity. We are all incredibly grateful for all that you have done for us! (You can find some of them and a link to find all of the Gesara club legends on our friend's page on our website).

I would also like to give acknowledgment to Michael Tellingner from the Ubuntu and One Small Town Movement. He has dedicated the last 20 years to helping humanity and the knowledge he shares plays a massive part in creating the new normal we all need to create the best

world possible with freedom from the system that is currently in place keeping us all enslaved.

Andrea Fenton a massive thanks goes out to you with your books and empowering angels board game keep up the great work!

I would like to say thank you to the great educational videos by After Skool on YouTube to say I was highly impressed is the understatement of the century!

Santa Surfing has also been fighting for us all to share the truth and knowledge so a massive thank you to you and Sammy the squirrel!

You can also find The Common Law Courts UK & International who have also been doing a great job for the people with all of the above mentioned people on our friend's page on our website.

CHAPTER 1 THE FIRST YEAR

So it has been slightly over a year since I first began or realized that I was on this journey with you all and what a year it has been! Since we began this journey a lot has happened and a lot of people have come together and are now aware of what has been happening in the world for all this time and the truth is beginning to make everyone aware of the predicament we are in as a species. It is not the climate change, it's not even the way we have destroyed the planet or even the countless endless war machine that is blowing a hole in humanity. It is the elite, corrupt politicians, banksters and governments we were supposed to have elected to protect and serve us. We have seen a corrupt election in the United States of America and a fake president win an election by blatantly cheating with tons of evidence that was refused to be even looked at. Joe Biden can hardly string a sentence together without looking, mumbling and sounding like he suffers with acute dementia. We have also seen the politicians in Myanmar (Burma) be arrested and put into prison after a military take over and the military proving the government there have been cheating the democratic vote and that the same voting systems/companies that were used in the United States, the United Kingdom, the EU and many other countries for years. This is looking likely to set the precedent for the world especially as more and more evidence of election fraud is being proven in the United States.

The Coronavirus has been the center of most people's attention since it began in December 2019 and the whole world has been locked down under the CDC (Center for Disease Control) and the WHO (World Health Authority) and the Bill and Melinda Gates Foundation seem to be the people at the top of this pyramid being the biggest funders of these organizations. We have seen people made to wear masks that have been laced with chemicals being continuously worn and re worn which has led to all sorts of health problems in people including hypoxia, and the weakening of people's natural immune systems. We have seen the news and media go on 24/7 about how bad is it and the hospitals are full and even images in the early days of people dying in the street and medical staff in has mat suits all of which were complete lies and fabrication to induce fear in the general public who believe the government care about us and the media are telling the truth. Then you look on the official UK government website for all deaths in 2020 (in England and Wales for me) and you see that over 10,000 people LESS died than in 2018! Also then you add in the fact that lockdowns have increased suicide and mental health problems significantly and also people haven't had their operations and most were cancelled and cancer treatments and other major life saving treatments the same and the fact that thousands upon thousands of people have complained and came out online speaking out about their relative dying from terminal illnesses/diseases and having Coronavirus put on the death certificate even though one person died from injuries falling off a ladder! Then we see that the PCR test is giving mass false positives results resulting in the false belief that some people just have no symptoms. The man who invented the PCR test said this is not to test for viruses and if amplified above 25% it would produce fake positives and everywhere has been amplifying it 35-55%. This resulted in

the so called virus having about a 99% survival rate and lots of no symptom people but we have all been locked in our homes and forced to close our businesses destroying the economy, the businesses and the lives of almost all people involved apart from multi-national companies like McDonalds. Currently there is talk of going back to the governments proposed “new normal” around summertime in the UK and most places but with the introduction of vaccine passports to be able to go to work or travel or socialize. We also have several rushed vaccines that the companies skipped the rules of the Geneva treaties and have skipped animal trials in order to rush out a vaccine in which we are the lab rats and which is also set to make Bill Gates Billions of dollars. Again if you look on the .gov.uk website you can see out of approx. 110K people who received the first vaccines around 3500 people (2.8%) had “adverse reactions that left them unable to continue day to day living without permanent medical help”. So that makes the vaccine deadlier than the virus and also we do not know the long term effects to add on top. I will pass on that one thanks Bill!

Because of all this I was looking for answers and I stumbled upon Charlie Ward, Pimpy and Santa Surfing Broadcasts all on YouTube. I found here lots of alternative news that made a lot more sense to me in every way and I began reaching out to these people and speaking with them. I spent the year jumping on lots of YouTube videos for their channels trying to discuss what we think is going on and how we can all help each other it was lots of fun and great stuff and I’m thankful of the opportunity to do so with them. You can find all the relevant videos on The Humanity Project YouTube channel.

2020 was also the year censorship became a big thing! So

many people got their YouTube, Twitter, Facebook accounts and more pulled for sharing anything that goes against the official narrative for what is going on in the world right now and in the past. We saw doctors of virology and all areas some long standing medical experts pulled of and labelled mis-information (oddly all the ones NOT on Bill Gates payroll). We saw Charlie, Santa, Pimpy and many others lose their channels for sharing truths and facts the establishments didn't want you to see and with big tech on their side and the media making sure they silenced as many people as they possibly could. We even saw the President Donald Trump kicked off Twitter! But despite all of this the people seem to be becoming more and more aware of what is really going on in the world and waking up to the fact that all of our governments have colluded together to control us and enslave us and have not been acting in the best interest and serving or protecting the people for a very long time, they have only been serving and protecting and enriching themselves whilst watching and making us all suffer more and more without any remorse.

Now is the time we as a united humanity, united under peace and love and unity and united to save our children from the horrendous human trafficking that has been going on for all these years!

It is time we came together in our communities and stood against the control and attempted permanent control over our freedoms and stand against and unjust, unfair system of enslavement they have had all living in! So after I had my download or revelation or whatever you wish to call it I began creating The Humanity Project and putting all the information which I was showed down and speaking to all

the people I can about it and about the world and building a following to try and get this knowledge out to the people but there was something missing! I knew the foundations of what we needed to do but there were aspects I was unsure of and I knew inside other people are going to contribute and all of the finishing touches would come together. Well we are pretty much there already! Two other major aspects have come together which when combined give the ultimate plan to how we can very quickly and easily change the world, change the community, change the system and make it in work in our favour! The One Day Movement was born!

CHAPTER 2 TRUMP, Q, GESARA

So we have the plan of action but how do we put it into action!? This is where it gets very interesting. It seems that along with the Coronavirus there is a hell of a lot going on in the political world and the army, government and all the big control systems have been playing their part. It became apparent Klaus Schwabb and the fourth industrial revolution are here and gearing up for automation and the great reset agendas 21 and 30. It is all there online they are open about what they are doing to us all and where they are trying to take us. They planned for automation to take 90% of the jobs and leave us all on a basic universal income which of course places everyone under their control. Don't take the vaccine, do things they don't like they can just stop your money. They have tried their best to destroy smaller and middle sized family businesses to trap more people in this new system. Luckily the "white hats" have been on our side and are fighting the great reset and taking down the bad guys that have desperately tried a last ditched attempt to enslave us all before they lose their power and control over us for good!

Donald Trump was the first president to not go to war in decades! Donald Trump was the first president in decades that was all for the people and in every way he made a great impact on the lives of all people from all races, religions and backgrounds in America. He was attacked by the Democrats, deep state and their media puppets and they tried to impeach him twice on completely false fraudulent

claims which he easily won both time. He took down more human trafficking and child sex rings than the last several presidents all combined! He created peace with North Korea and in the Middle East getting multiple Noble Peace Prizes. He built the greatest economy America had ever seen (even during a scandemic). He fought valiantly for his country and his people and for God in his first four years in power. Then the new elections were upon us and he filled every single rally with hundreds of thousands of people, seventy-mile-long traffic Trump trains like no president ever done before! Whilst sleepy Joe Biden hid in store rooms and had only a handful of supporters at his rallies where he mumbled and bumbled his way through them. The vote happened and because Donald Trump was so popular they had to cheat on a grand scale and we ended up with more voters than people, dead people voting and all sorts of irregularities. The evidence of a stolen fraudulent election was there in abundance and the legal system and supreme courts refused to even see the evidence.

At the same time that all of this has been happening a Q movement began with a group of people believed to be the good guys/white hats inside the military who have been dropping information and tips on what information to look for regarding all of the corrupt world leaders, politicians, royal families, Hollywood actors and all the people involved in all the crimes against humanity over the years! They got people to do their own research and highlight and put together all the dots for the evil plans and actions that have been committed against the people of the world by the evil global cabal. It appears we are almost out of the other side of all of this and that the establishments and evil characters involved have been/are being taken down

worldwide and will face Nuremberg type trials for crimes against humanity.

At the same time Gesara/Nesara also appear to be rolling out which will replace old corrupt governments with new ones created for and controlled by true democracy and the people, the release of over 6000 suppressed technologies such as med beds, the return to common law / constitutional law, 2000 years of peace, redistribution of wealth and funding for humanity projects and much more. I don't want to talk about this too much there is plenty of information out there and if you look on the Gesara Club you are in the right place. You will also find The Humanity Project on there.

https://thegesarclub.com/my_profile/scotty-saw-the-humanity-project/

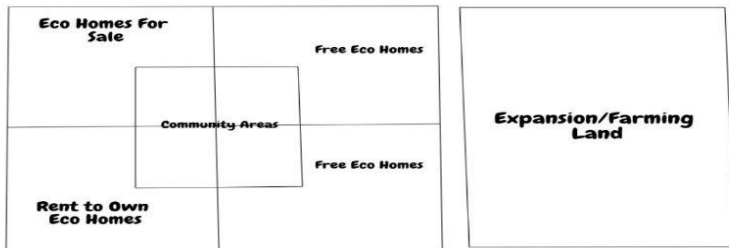

The reason for mentioning Trump, Q and Gesara is because this does make a difference to us all. If these things all fall into place like a lot of us are hoping and trusting the plan then great! They will also make it much easier for us to do what we need with humanity projects to fix this broken world/system I am very confident this is all going to happen and play out as we hope but IF they don't either way we have the plan of what we need to do anyway and if you look at Michael Tellingers One Small Town movement and The Humanity Project One Day Movement we have the foundations we need by introducing Contributionism into communities to drastically change everything and end modern day slavery and give an abundance to one and all!

CHAPTER 3 ONE DAY MOVEMENT PLAN

So what do we have to do to beat the system and change it so we are all free living in abundance?

It starts with One Small Town as described by Michael Tellinger and in the basics of The Humanity Project on our website. We simply buy a big enough piece of land add sustainable energy and build 5000 4 bedroom eco homes with all modern conveniences and aquaponics/hydroponics set ups attached alongside their front garden, a food court and community center. The land will be big enough to duplicate this process and build a further 5000 eco homes and have an equal sized space of land free for future expansion/development and will look like the illustration on the following page..

PLUS A LARGE PLOT OF LAND

BUILD 5000 ECO HOMES + FOOD COURT + COMMUNITY CENTRE

Once we have our foundation down we are free to move the people in. So we give the eco homes to the first 5000 families/people who want to join our new normal

communities and prioritize to give these to the people who need them most. Each family/person will have a free home with free energy and all they have to do to live there is contribute three hours one day per week and allow the food to grow and be collected for the community food courts and supermarket. Everyone will have free food and drinks in the food courts and can take their share of what they want from the supermarket.

We produce about 4 times what we need. This leaves a surplus we can sell/trade with other areas. Giving us an income and trading ability.

The average home will have two adults and some children, all people can contribute three hours per week to the community workforce even the children can learn to grow, pick fruit etc. This gives us about 10,000+ people on a low estimate contributing a total of 30,000 hours a week in the community workforce and as more people join us this will grow with the community. We can all choose what things we would like to do such as yoga classes, child care, looking after the elderly and so on. We will need dentists and builders and teachers and all kinds of people who can contribute towards creating the kind of society we want that meets everybody's needs and that works for the people.

We can also build and grow our community and entice others to join us by building a further 5000 eco homes or more and offer rent to buy homes with all benefits included for cheaper than the local rental market in that area making it complete sense to move into our community and reap the benefits and in a short amount of time own your own eco home and be off the rental market.

We can also sell some of the eco homes for slightly cheaper than similar sized homes on the market in that location again including all the benefits of living in our communities. Making complete sense to sell your home and move in with us!

This is a new way of life and a contributionism system as described in the One Small Town Movement. “Putting the Unity back in the Community”. It is called that because it all starts with one small town and once we show the world what we can do everyone is free to go and make these changes and do this everywhere and it will soon spread all over the globe! One day this is all possible and we can maintain and grow and do everything we need... One day.

CHAPTER 4 THE NEW PLATFORM MAHALO MARKET

When I began putting the website and everything together and laying the first foundations of The Humanity Project down I included that in the future we would have a new platform similar to Ebay/Amazon where people could buy/sell artwork, books and anything they produce or services they offer such as online teaching, therapies etc.

One of the good guys to come out of the woodwork was Ambassador Rogers of Cherokee West Terra. Who said to me “It’s a pleasure to sponsor your projects, pay it forward”.

Ambassador Dustin F. Rodgers, A.G. Ret.

Honorable Ambassador to the U.N. for the Cherokee West Terra President, The World Indigenous Nations Council (WIN) Chairman FRYD.TV, JingleSPOT, Mahalo.Market, and axr360.

The Ambassador has spent his whole life fighting the good fight in one way or another and is a true hero and philanthropist that we can all learn a lot from and I think we shall when the world recognizes him for all he has done for it and for us the people!

The Ambassador and I were brought together by the creator and it appears there are many plans of ours that go together like cheese and wine. He has longed intended to create a platform and he has done so and its one that fits perfectly in with the humanity project and our goals and also perfectly with humanity itself.

Mahalo Market is something never seen before and it will very quickly revolutionize the way we spend our time online. Without saying too much about the new platform it

was built for everybody with the opportunity for people to start for free and get the help and all the tools needed to generate a four, five or even six figure income step by step on autopilot enabling people to generate all the money they need to support their families and community and the free time do so.

The Possibilities are endless and the opportunity is the best one ever given to humanity especially when combined with our new normal communities.

Take a look for yourself. <https://Mahalo.Market/360>

CHAPTER 5 CONCLUSION A WHOLE NEW WORLD

The foundations for a whole new world and the only new normal we need to strive for and create as a global community are contained in this short book. Once we make this a realization it will quickly spread and grow all over the world. It doesn't make sense for the vast majority of us to not live in these new normal communities.

Why pay never ending always increasing rent and bills for the rest of your life when you can be done with all of that right away or at worst case scenario a few short years!?

Why stay forced to work just to live and live to work when you can have everything that that affords you plus so much more by only working three hours one day per week!?

This plan and a Contributionism system works for everyone! Because of the way this system works we have a free workforce and Capitalist businesses will not be able to compete with the products and services we provide. There is no competition. All we have to do is create it and we the people all win back our lives and our freedom and are free to create heaven on earth as the creator intended before it got hijacked by the banksters, deep state, evil satanic forces, governments or whatever you wish to call them.

Imagine once we create these communities all around the world and unite them under humanity and we have the majority of the population living in this new normal world.

We can create our own political parties in each country and very quickly democratically take back any power over us by dark forces and remove any controls they have had placed over us for all these years.

Once we achieve this there is no stopping humanity from growing and thriving and us all living our best lives and contributing in the best way we can helping to grow the evolution of the human race and bring in a world and a future for our children that we are proud to all live in together. There is only one race. The human race.

Find us and join us here <http://thehumanityproject.club/>
