Professional summary

I've wired domestic, commercial and industrial installations, as well as more specialised projects in rail, water treatment and power stations. Using my JIB gold and black cards, I supervise groups of electricians to get better outcomes from working together. Soon I'll be adding City & Guilds 2391 Inspection & Testing to my tickets, and I have ambitions to become an electrical design engineer in the next few years. I always arrive on time, do a great job, and tidy up after myself. I'm happy working both independently and under supervision. If you have any questions, give me a call, I'll be happy to talk.
