introduction:

This report monitors the number of martyrs who rose during the brutal Israeli aggression on the Gaza Strip.

During the period from 7 to 26 October 2023 at 15:00, this report contains a summary

The numbers of martyrs are classified into males, females, adults, and children, in addition to a chart that monitors the numbers.

Martyrs every day.

This report contains a complete record of the martyrs, including name, ID number, age, and gender

This report contains a special record of the names of children who were killed by the army's brutal machine of destruction

Israeli forces during the aforementioned period of aggression.

Report summary:

4115 adults, while the total number of martyrs reached 7028 martyrs , including 2913 children and

3899 males, and the number of unidentified people reached 281 of the total martyrs by gender, 3129 females and

Registered martyrs.

• This report does not include the following categories:

1. Missing people under the rubble.
2. Those who were buried directly without being brought to hospitals.
3. Those whose hospitals were unable to complete their registration procedures.

• Therefore, the actual number of martyrs is hundreds of martyrs higher than the number monitored in this report.

Work methodology:

1. Once the martyrs arrive at the emergency department in government hospitals, the martyr's arrival data is recorded with the martyr's arrival number.

Identity and personal data (once identified) with time of arrival in the computerized hospital information system.

2. Each hospital also records cases of death (martyrdom) of injured people who stayed in the hospital for a period before

Their martyrdom.

Migration of martyrs' data from the decentralized hospital system to the central martyrs' registry database ³ once daily.

4. Non-governmental hospitals, through special forms, record the data of the martyrs upon their arrival, and then they are sent to

The forms will be sent to the Health Information Center in the Ministry of Health within 24 hours so that they can be entered into the health record database.

Martyrs

By completing the data processing and ensuring that after completing the previously described migration process, the Health Information Center operates daily ⁵.

It is completed and there are no repetitions or errors.

6. The Information Center prepares the daily statistical report on the numbers of martyrs and designs the infographic models shown.

The general status of the martyrs' file and send it to the Health Emergency Operations Management Center for approval and circulation.
