

Dear NGESRO players.

NGESRO is currently running on old Silkroad Online files that feature the old job system (3Job). Unfortunately these files are missing the crucial second movable skillbar, which has been a great improvement in terms of gameplay in modern Silkroad Online versions.

NGESRO was always intended to focus PvP activities. In the future Survival Arena will be a regular event that is held in the server where players can compete in teams against each other. In order to ensure the quality and enjoyment of party PvP like Survival Arena and Battle Arena, it was decided to switch to newer Silkroad Online files with the Second movable skillbar and the new job system (2Job) implemented.

Please note that this will not mean to upgrade to Silkroad Revolution files. The core gameplay and mastery mechanics will stay the same.

These new Silkroad Online files will also improve PvE activities like Jupiter Temple.

There are plans to add way more exciting official Silkroad Online dungeons in the future.

Please visit "<http://www.ngesro.website>" for more information on the new NGESRO (2Job) server that has just launched.

The old NGE (3Job) server will shut down on the 18th of October.

Item transfer system:

It will be possible to transfer your equipment to the new server to value your effort and dedication to NGESRO.

Transferable items:

- Arena Coins
- Forgotten World Talismans
(Talismans that are already registered inside the collection book will only be transferred if the collection book is still incomplete. For those with a full 8 talisman collection book, please finish the quest and get your desired reward.)
- Magic Pop (account bound)
 - Power/Fight Weapons
 - Nova equipment/accessory
- Sealed items (from monster drop)
 - Power/Fight Weapons
 - Nova Weapons
 - Nova equipment/accessory

Important:

- The new account must at least have one character created to be able to transfer your old items to the new server
- regular Nova Weapons from Magic Pop (account bound) cannot be transferred.
- Item blue magic effects and white status effect from Magic-/Attribute Stones cannot be transferred

How to transfer my items:

1. Make sure all the items you want to transfer are placed in your Inventory, Storage or are currently equipped.
(Only the items mentioned above can be transferred)
(Items stored somewhere else can not be transferred)
(Transfer request can only be executed once, via message @[GM]NGE in private in discord or by sending an E-Mail to ngesro@outlook.com)
2. Message @[GM]NGE via private message in discord or write an E-Mail to ngesro@outlook.com containing your old account ID (with the items to transfer) and the new account ID (that will receive the items on the new NGESRO(2Job) server) (the account ID is one you use to login to the game, please don't message me with your password)
example message:
Old account ID: "myOldID" (your existing ID on the old 3Job server)
New account ID: "myNewID" (your new ID on the 2Job server that you have just created)
3. Wait for execution of your request. You will find the transferred items in your Storage on the new server.
(This can take one week or more, since the server has to be under inspection while processing your request.)

Thank you for your continues support of NGESRO (2Job) and have fun on the new server with more updates to come.

Best regards [GM]NGE
