### 肝移植申请

上海长征医院器官移植科是全军唯一的器官移植研究所，肝移植部为全国十大肝移植中心，每年完成130余例肝移植手术，现阶段我研究所肝移植从手术到出院住院费用大致为20万元，我院肝移植病人的平均等候供肝时间为一周。为了更好的服务于广大的肝病患者的，我们设立了网上肝移植申请项目。

如果您或您的亲人需要做肝移植手术，请填写下列表格：

# Viscera providers can be found **immediately!** (CITNAC, 2005)

The screenshot shows a web browser window with the address bar displaying <http://web.archive.org/web/20050404115530/http://en.zoukiishoku.com/>. The page features a navigation menu with 'LOGIN AREA', 'bulletin board', and 'List'. The main content area has a green header for 'Introduction to China International Transplantation Network Assistance Center'. Below this is a photograph of a large hospital building. To the right of the photo is a text box with a red border containing the text: 'Viscera providers can be found immediately! Please contact us before the state or your illness gets worse. (In accordance with Chinese law, the viscera are provided by the state-owned hospitals.) The Transplantation assistance center, which mainly focuses on the foreigners, was founded in 2003 in the Transplantation Institutes of the First Affiliated Hospital of China Medical University by the CITNAC. In this center, all the doctors and nurses are

members of the patient. The **transplantation center** has been well equipped for the patient and their families needs and provides excellent service. We are waiting for your consultation by phone or by e-mail.

fluent in English. Because they have studied abroad, they are familiar with international culture. Patients can receive their treatment without any worries. After the operation, the patient can still have further treatment in the TICU, or the ward for the senior officers, which provides special care and the most advanced medical equipment in China. Also, in this center, the Japanese staff can speak English as fluently as their mother tongue;

# Wang Lijun

Police chief of Jinzhou City (2003-2008)

Police chief of Chongqing (2008-2012)

Sentenced to 15 years in prison (2012)

(for abuse of power, bribe taking, defection and bending the law for selfish ends)

# Several thousand people were killed for Wang Lijun's transplantation research

## Wang Lijun

former Police Chief of Jinzhou City, received an award in 2006 for his research involving **several thousand transplants (2004-2006)**

- In 2004, Wang founded the On-Site Psychology Research Center (OSPRC) of the Public Security Bureau of Jinzhou
- Title for research: **"Research on Organ Transplantation from Donors Subjected to Drug Injection"**
- "The 'on-site research' is the result of **several thousand (execution) on-site cases**"  
[from Wang's speech on receiving the award on Sept. 17, 2006]

# Executed death-row prisoners only contributed to a minority of the organs used for Wang's research

## Wang Lijun

former Police Chief of Jinzhou City,  
received an award in 2006 for his  
research involving **several thousand**  
**transplants (2004-2006)**

	Population	Executed death-row prisoners (2004-2006)
China	1347 million	~ 12,000
Jinzhou	3 million	? (27)

# Many organs for Wang's transplantation research were seized from Falun Gong practitioners

**Chen Rongshan:**

collaboration partner of Wang, the urology chief physician of the

**PLA 205 Hospital in Jinzhou City**

**Liaoxi Business Daily (May 23, 2006):**

“The highest realm and pursuit of a military doctor.” The report praised

Chen Rongshan for **having completed 568 cases of kidney transplants.**

**Telephone recording:**

Investigator: I'm from the Wang Lijun inter-departmental investigation team. ...

Investigator: Wang Lijun told us that **some organ donors were jailed Falun Gong practitioners. Is that true?**

**Chen: Those were arranged by the court.**

## 同种异体原位心脏移植的体会

郭好学, 刘书勇, 姜如同, 王彦威, 百宏灿, 张燕齐, 杨巧枝

(武警河南总队医院外四科 河南郑州 450052)

**摘要:** 目的: 探讨心脏移植术后处理方法。方法: 对我院1例同种异体心脏移植病例进行分析, 并结合文献学习。结果: 患者手术顺利, 心脏自动复跳, 术后曾2次出现肺部感染, 第1次经联合应用抗生素后治愈, 第2次因合并霉菌感染治疗无效, 术后46天死亡。结论: 心脏移植是治疗扩张性心肌病等终末心脏病不可替代的手段, 手术顺利完成只是成功的第一步, 还有很多工作要做, 任何一个环节出问题都将影响最终的治疗效果。

**关键词:** 心脏; 移植; 同种异体
