

July 5, 2018

Dear Sequoia Shareholders and Clients:

For the second quarter of 2018, Sequoia Fund generated a total return of 5.80%¹, net of fees, versus a 3.43% return for the Standard & Poor's 500 Index. The Fund generated a 7.16% total return year-to-date through June 30, 2018 versus a 2.65% return for the Index.

We want to thank the hundreds of shareholders and clients who attended our 2018 annual investor day on Friday, May 18. For those who couldn't make it, we hope that the attached transcript serves as a useful mid-year update on our Firm, our holdings and our approach to investing.

There was limited activity in the portfolio this quarter. We trimmed the Fund's stakes in Amazon and Berkshire Hathaway and exited our small position in Omnicom. We also added to our holdings in Facebook, Jacobs Engineering, Liberty Broadband and Naspers.

As ever, we are grateful for the continued support of our clients and shareholders.

Sincerely,

The Ruane, Cunniff & Goldfarb Investment Committee
