WELCOME

To our tribe,

Our team have been having a little fun around here. Thinking about you and how we can inspire you to look and feel confident every single day.

We've been creating signature pieces and prints for women with curves for over 34 years. As we leap fabulously into this new season, we've taken this experience and created design-led fashion (with a nod to trends) and showcased it in this beautiful book.

We'll continue to be brave and lead by example, so you have the courage to do you!

TALKING

We talk design and inspiration with Ali Caldwell, our Taking Shape fashion designer.

"We work by month getting into the detail of what these collections will look & feel, focussing on the hero prints and key silhouettes."

"The 'Wild Thing Shirt' layered with the 'Diva Vest' and I love a slim pant so the 'Line up Ponti Pant' would go perfectly with this. Every outfit needs a base, the 'Double Layered Swish Tank' is a great combo."

SHAPE

Can you tell us a little about how long you've been at Taking Shape and what it means to you?

I've been with Taking Shape for seven years! I love designing for the fuller figure, it's important to feel good about what you wear! Curvy women want to look fashionable and feel comfortable, and this is what we love to offer.

The Wild Thing collection has some super luxe pieces, can you tell us about it?

The animal print trend is big for the Autumn/Winter '19 season. It's fun and playful and we love a tribal print. The richness of the fur coming through vests and shearling jackets, really elevating the range.

Let's talk about designing for Petites Plus. What inspired the creation of this range?

We have very loyal customers who love giving us their feedback. We have had a lot of requests for a petite offering from customers 5'2" and under who love our product but find some designs hard to wear due to the length.

We have worked hard over the last 18 months to provide the Petite Plus customer with the look made proportionally right for her.

What is the decision making process to create a piece in Petite Plus?

We look at the monthly collections and identify our hero pieces. Those pieces which are longer in length or dramatic in shape get a re-design.

There is a certain math in designing for the Petite Plus collection, but of course I can't give away all of our secrets. Petite ladies are proportionally shorter or narrower in their body length and shoulder width, so we have adapted guidelines, to ensure the product looks and fits well, and she feels just as fabulous!

"I love the 'Intermix Vest' made from a beautiful Jacquard fabric. I love the versatility of wearing it over the 'Instinct Bamboo Top' or the 'Cora Everyday 3/4 Sleeve Top' with a black pant or 'Instinct Stripe Pant!'"

Concepting begins with mood boarding the latest trends – colours, fabrics and prints. This starts to give us a direction for the range.

Buying trips, travel experiences and Fashion Week really inspires what we do from season to season.
