HR193 - Sovereignty Act

HR24 - Act to Audit the Federal Reserve

HR10 - Act to repeal the Dodd Frank act and end bank bailouts

S2155 - Solution to Economic Recovery, Banking Changes, and Consumer Protection

In other news, El Salvador is expected to convert an unfinished nuclear power plant with Tesla technology and introduce free energy.

This signifies that central banking is failing and the fiat money system is imploding.

A new type of asset-backed money system is the only solution.

According to sources, several indicators suggest Iraq will soon revalue their currency.

Other currencies are expected to revalue as well once each country either adopts the gold standard or a type of asset-backed money system.
